Engage

Debate

Enjoy

The BHS Annual Scientific Meeting is the **UK's premier hip surgery forum**, discussing research and advances in clinical practice of **hip related conditions**, through robust debate and presentation of scientific papers.

Three days of
Education, Collaboration, Innovation
and **Social Networking.**

President's Welcome

Dear Colleagues,

I look forward to welcoming you at the British Hip Society's 2025 Annual Scientific Meeting and Instructional Course in Harrogate.

I hope you enjoy the meeting but also take some opportunity to enjoy Harrogate and the surrounding area. Harrogate is the perfect venue to enjoy with your colleagues, friends and family.

My thanks go to the entire organising committee but in particular Tim Petheram, Satish Kutty and Naomi Gibbs, who have been working incredibly hard to deliver the BHS scientific programme and meeting. I must also acknowledge the many society members who have contributed in many different ways. Sadly, I can't mention everyone, but your help is truly appreciated.

This year we are incredibly excited to have both AAHKS and BAJIS as our guest societies. The AAHKS faculty includes James Huddleston, Antonia Chen and Michael Meneghini who will deliver a topic in focus on future technology as well as contributing to the wider programme.

James Huddleston, President of AAHKS, Professor of Orthopaedic Surgery at Stanford will deliver the Presidential Guest Lecture.

BAJIS will head up the infection topic in focus updating you on key papers and topics in management of hip infection with a glance to the future. We also plan to have a lively trans- Atlantic debate to end the session.

In a break from tradition, I have invited Sir Ian McGeechan OBE, former British and Irish Lions head coach to deliver the Charnley legacy lecture.

The main scientific programme will include a mix of podium and poster presentations, JAM sessions and topics in focus including hot topics, non-arthroplasty hip surgery, metastatic bone disease and revision hip networks as well as those from our guest societies.

I am grateful to Jonathan Barrow and Josh Lamb for running the emerging hip surgeon's forum and the newly launched fellowship forum where we plan to showcase post CCT fellowship programmes from around the UK.

Finally, a big thank you to the industry exhibitors for their fantastic support. I would encourage everyone to visit their stands and attend their symposia sessions. This year we have introduced the Hip-Education sessions taking place in the HIP-ED theatre within the exhibition hall. These, I am sure, will be a great addition to the main programme.

The last day of the programme will have the Instructional Course running in parallel to the main meeting. The theme this year is the young adult hip. Satish Kutty, along with Tony Andrade and Ajay Malviya, have put together an excellent programme for this.

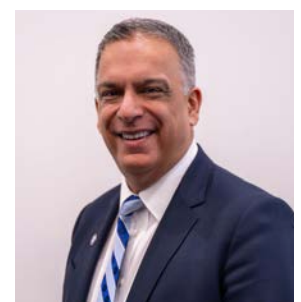

Our culture and diversity committee has again planned a variety of events to keep everyone involved and Naomi Gibbs will keep us up to speed on all of these. As has become a tradition of this meeting, local schools will be contacted to participate in our school's engagement session and provide them with exposure to hip surgery. Medical students via the British Orthopaedic Medical Students Association (BOMSA) will again hold their parallel full day meeting on day two, Thursday 6th March. This year's fun run will be held on Thursday morning and will have a Eurovision theme! There will be a prize for the best costume!

The BHS 2025 app will be available to download nearer the time of the event with a number of useful features to fully engage with all parts of the conference and to get your CPD certificate afterwards.

The British Hip Society remains a real highlight of the year and continues to grow and improve year on year.

I hope you, your friends, and your family enjoy Harrogate and the meeting in general.

I look forward to seeing you all soon.

Anil Gambhir
President, British Hip Society

Wi-Fi @ HCC VENUE | Network name: BHS | Password: #bhs2025

CPD CERTIFICATES

Up to 16.5 CPD hours for the annual scientific meeting and up to 6 CPD hours for the instructional course have been awarded by The Royal College of Surgeons of Edinburgh. Complete the online evaluation post-event via the BHS 2025 App to receive your CPD certificate.

PODIUM, JAM & E-POSTER CERTIFICATES

Certificates of presentation for podium, JAM and E-poster presenters will be sent electronically post-event to the corresponding author.

SPEAKER PREVIEW & UPLOAD SLIDES IN ADVANCE

We advise **ALL presenters to upload their slides in 16:9 format no later than 24 hours before their scheduled talk** to avoid technical delays - please refer to upload link and instructions sent by email by the organisers.

Please bring your slides with you on the day and proceed to the speaker preview room **at least two hours prior** to your scheduled talk time and check all is in order with our audio visual team.

E-POSTERS | TOP 20 POSTERS | ABSTRACTS

View all scientific posters, podium and JAM paper abstracts via the BHS 2025 App. The "TOP 20 POSTERS" will also be displayed on physical boards in the exhibition hall.

LIVE STREAM & ON DEMAND VIEWING

Registered delegates not attending in-person can watch the live stream remotely. On-demand access is exclusive to BHS members from July 2025. **Note:** JAM papers, industry symposia, Hip Physio Network, and Podium papers on Thursday PM will not be live streamed. **Not a member?** To join, visit: <https://britishhipsociety.com/join-bhs/>

MEETING VENUE

Harrogate Convention Centre, King's Road, Harrogate, HG1 5LA.

Please use ENTRANCE 1 next to the Crowne Plaza hotel. [CLICK HERE](#) 

CAR PARKING [CLICK HERE](#) 

LOCAL TAXIS

Mainline Taxis - 01423 555 555

Blueline Taxis - 01423 530 830

FIRE ALARM

- The sounding of loud alarms/sirens indicates a fire alarm.
- Evacuate immediately by the nearest exit and make your way to the appropriate assembly point.
- Exhibitors are advised not to try to remove their goods from the hall.
- You will be informed of the situation at your assembly point.
- Permission to re-enter the halls may only be given by the Fire Officer in charge.

REGISTRATION & BADGES

The registration desk at **ENTRANCE 1** will be open from 7.30am on all three days. Lanyards and name badges will be issued to delegates upon arrival - **for purposes of security, please wear these at all times.**

FAMILY ROOM FACILITIES

The BHS are pleased to provide a family room with access to appropriate facilities. Pre-registration is required as availability is limited - please email hello@medxevents.com in advance of arriving at the venue.

PRAYER ROOM

Please check with a member of staff at our registration desk for further details.

SCHOOLS ENGAGEMENT

Why be a Surgeon?

Objectives:

Increase awareness for school students about careers in Trauma and Orthopaedic Surgery.

Facilitate access and interaction in an inclusive environment.

Provide positive role models and championing diversity.

Programme - subject to change:

08.30 - Registration

09.00 - Introduction and Welcome

09.05 - In2Med presentation

09.30 - Workshops (20 mins. each)

- Life as a physiotherapist
- Corin - hip implant work
- Life as an orthopaedic surgeon & X-rays
- 'What training looks like' and VR sets

11.00 - Hot chocolate and refreshments

11.15 - Industry Exhibition Tour

12.00 - BHS video compilation, questions, closing remarks

12.30 - Close (Packed lunches and departure)

Room: Auditorium

08:20 WELCOME

Anil Gambhir
President, BHS

Your Guide to a Successful LLP****Speaker:****Sally Barr**

Managing Director, Trust Health Limited

Thinking about forming a consultant LLP?

This talk will guide you through the essential steps to establish a successful partnership, from setup to securing contracts with the NHS and the ongoing operational management.

We'll discuss why LLPs are a powerful model for collaboration, offering financial and operational advantages. Gain practical knowledge about procurement, governance, IR35, and indemnity, and see how our business support services simplify the process, allowing you to focus on your clinical expertise.

Join us to learn how to transform your vision into a well-managed, compliant, and impactful partnership that works for you and the NHS.

NHS Fife

Choice of femoral stem in hip arthroplasty is increasingly important as the incidence of post-operative periprosthetic fractures (POPFF) continues to rise. As UK and International studies indicate composite beam stems have the lowest risk of POPFF, join us as Mr Adeel Akhtar presents the outcomes of using an anatomic composite beam hip stem in a UK centre. Followed by clinical and radiographic analysis of femoral revision using a modular cementless distal fixation prosthesis with Mr Andy Ballantyne.

Safety and outcomes following the use of a collared composite beam anatomical stem for NOF treatment.

Adeel Akhtar

Femoral stem design influences post-operative peri-prosthetic femoral fracture risk - a multi-centre UK study.

Adeel Akhtar

Experience of revision hip arthroplasty using a modular cementless distal fix prosthesis in a regional treatment centre - Link MP.

Andy Ballantyne

08:30-11:45 **BHS & UK HIP PHYSIO NETWORK WORKSHOP**

Differential diagnosis of joint and soft tissue related anterior hip pain
(FAIS, labral tears, instability / dysplasia, OA and hip flexor related pain)

Would you like to improve your differential diagnosis of anterior hip pain?

Join us for a session on assessment and differentiation, with international guest lecturer

Dr Alison Grimaldi, exploring intra-articular pain, anterior instability, psoas pathology and everything in between!

This will be followed by a practical workshop facilitated by members of the UK Hip Physio Network, implementing this knowledge into practice, including refinement of assessment, handling skills and diagnostic tests.

Chairs:

Katie Monnington
Stanmore

Alison Smeatham
Exeter

Speakers:

Kelly Bainbridge
South Tees

Lucie Gosling
Birmingham

Alison Grimaldi
Brisbane, Australia

Michael Murphy
Oswestry

Caroline York
Stockport

08:30	Introduction of the UK Hip Network/BHS and introduction to Dr Alison Grimaldi	Lucie Gosling
08:45	Theory 'Differential diagnosis of Anterior Hip Pain' to include FAI/ Labral pathology, OA, Psoas pathology, anterior instability (dysplasia/ hypermobility)	Alison Grimaldi
10:00	Coffee and networking	
10:30	Practical differential diagnosis workshops (15 mins. each at 4 stations) Station 1: Intra-articular tests Station 2: Anterior instability tests Station 3: Hip flexor related pain and dysfunction / pelvic control Station 4: Identifying femoral malversion	UK Hip Physio Network Members: Kelly Bainbridge Lucie Gosling Michael Murphy Caroline York
11:45	Closing remarks

Know more. Ream less.^{1,2*}

with Mako Total Hip
SmartRobotics™

It's been shown that **28%** of manual hip patients' expectations were unfulfilled by their surgery.³

Ever experience a hip case that didn't go as planned? Imagine using the knowledge that comes from a CT-based plan that allows you to capture each patient's unique anatomy.

Pair this with Mako's AccuStop™ haptic technology, which helps you use this knowledge to precisely and accurately single-stage ream what you've planned.¹ All facilitating functional implant positioning.

Know more...so much more...and ream less.^{1,2*}

That's Advanced Digital Healthcare

Visit makoknowmore.com to learn more.

*For the Mako Total Hip application, "ream less" refers to greater bone preservation as compared to manual surgery.^{1,2}

14:00 – 14:40 **INDUSTRY SYMPOSIUM**

& Parallel industry session

repeated **ADAPTING HIP ARTHROPLASTY PRACTICES TO
INCORPORATE EVOLVING DATA AND TRENDS**

Smith+Nephew

Speaker:

Ed Davis
Birmingham

The evolving landscape of Hip Arthroplasty, particularly with new data releases, requires clinicians to be adaptable and proactive in integrating the latest evidence into their practice. Prof Davis talks about striving for perfection within his practice and the factors he considers to be important from implant selection to Hip Navigation.

14:00 – 14:40 **INDUSTRY SYMPOSIUM**

Instructional Course 2025

The Young Adult Hip

Harrogate Convention Centre
Friday 7th March

Awarded 6 CPD hours by RCSEd

Why attend?

✓ **Calling all Trainees** preparing for the FRCS (Orth) exam and those who wish to develop an interest in Hip Surgery.

✓ **Diverse Surgeon Faculty** and opinion leaders giving an insight through video-based presentations, debates and didactic talks.

Satish Kutty

BHS Education Committee Chair
Instructional Course Convenor

Instructional Course Foreword

Dear Colleagues,

The BHS Instructional course was set up with the aim of providing a comprehensive, FRCS (Orth) syllabus and evidence-based update on topics related to hip surgery.

This facilitates acquiring and updating knowledge at a rapid rate and in a short span of time. The themes in 2023 and 2024 were "Applied Clinical Knowledge" and "Trauma & Revision" respectively. The theme for this year is "Young Adult Hip"

Six CPD points have been applied for through The Royal College of Surgeons of Edinburgh. Focusing on the mantra of 'Inclusivity and Diversity', dedicated and enthusiastic surgeons and academics from across the country have been brought together to lecture on their area of expertise for this course.

This course is aimed at trainees preparing for the FRCS (Orth) exam and also for trainees who want to develop an interest in Hip Surgery.

So, if you wish to learn, share, debate and discuss in an exciting environment, the BHS Instructional Course is for you!

Satish Kutty
