SOCIETÀ ITALIANA DELL’ANCA
26-27 NOVEMBER 2015
MILAN, ITALY

COMMITTEES

CHAIRMEN

Fares Haddad (United Kingdom)
Luigi Zagra (Italy)

SCIENTIFIC COMMITTEE

Francesco Benazzo (Italy)
Francesco Biggi (Italy)
Francesco Falez (Italy)
Richard Field (United Kingdom)
Sandro Giannini (Italy)
Peter Howard (United Kingdom)
Stephen A. Jones (United Kingdom)
Andrew Manktelow (United Kingdom)
Alessandro Massè (Italy)
John Nolan (United Kingdom)
Luca Pierannunzii (Italy)
Emilio Romanini (Italy)
John Skinner (United Kingdom)
Aldo Toni (Italy)

ABSTRACT REVIEWERS

Sandro Giannini (Italy)
Fares Haddad (United Kingdom)
Stephen A. Jones (United Kingdom)
Alessandro Massè (Italy)
Luca Pierannunzii (Italy)
Emilio Romanini (Italy)

RESIDENTS’ ABSTRACT REVIEWERS

Fares Haddad (United Kingdom)
Gazi Huri (Turkey)
Giuseppe Solarino (Italy)

Educational Corner Coordinator
Filippo Randelli (Italy)
OFFICERS OF THE BRITISH HIP SOCIETY

PRESIDENT
John Nolan (Norwich)

PRESIDENT ELECT
Fares Haddad (London)

VICE PRESIDENT
Peter Howard (Derby)

IMMEDIATE PAST PRESIDENT
John Skinner (RNOH, Middlesex)

SECRETARY
Stephen Jones (Cardiff)

TREASURER
Jonathan Howell (Exeter)

EDITORIAL SECRETARY
Andy Manktelow (Nottingham)

MEMBER AT LARGE
Dominic Meek (Glasgow)

WEB MASTER
Richard Field (SWLEOC Epsom)

CONSIGLIO DIRETTIVO

PRESIDENTE
Luigi Zagra

VICEPRESIDENTE
Giovanni Zatti

PAST PRESIDENT
Piero Garosi

SEGRETARIO
Giuseppe Solarino

TESORIERE
Giampaolo Rinaldi

CONSIGLIERI
Claudio Carlo Castelli
Pietro Cavaliere
Fabio D’Angelo
Marco D’Imporzano
Francesco Franchin
Guido Grappiolo
Michele Lisanti
Bruno Michele Marelli
Marco Villano
Nicola Santori
WELCOME

The British Hip Society and the Società Italiana dell’Anca welcome you to their first combined meeting on 26/27 November in Milan. To our knowledge, it is the very first time that two distinguished national speciality societies have integrated to organize a joint Congress that combines their traditions, current practices and future clinical and research trajectories.

By sharing experiences in both primary and revision hip arthroplasty, discussing different techniques (bony fixation, tribology and more), examining the results of hip preserving surgery and arthroscopy, or simply considering everything about the hip, it is a unique opportunity to improve surgical decision making and skills and to understand the current state of the art.

The meeting has received great interest not only in our native countries, but also all over Europe and outside the old continent. We also received tremendous industry support for which we are most grateful.

You will enjoy 6 Instructional Courses, 6 Cross Fires on hot topics, 7 Symposia, 6 Industry Symposia, 30 Oral Presentation Sessions including Resident Sessions, making up an overall number of more than 320 Oral Presentations; there are also 170 Posters and a veritable Educational Corner; every current hip topic is addressed in 2 full congress days of discourse.

This meeting has been made open to members of both societies, non-members, international attendees and all who are interested in the hip. The official language of the meeting is English, but simultaneous translation to Italian is provided in the plenary room.

We look forward to meeting you and we wish you an exciting and very educational experience in Milan.

Fares Haddad
Luigi Zagra
**Thursday, 26 November**

7.45-8.30  INSTRUCTIONAL COURSE
IMPAC TION BONE GRAFTING TECHNIQUE IN REVISION
Chairman: G. Rinaldi (Italy)

7.45  Which type of bone graft
L. Pierannunzii (Italy)

7.55  Cemented IF
J. Nolan (United Kingdom)

8.07  Cementless IF
F. Benazzo (Italy)

8.19  Discussion

---

7.45-8.30  INSTRUCTIONAL COURSE
OSTEOTOMIES AROUND THE HIP IN THE YOUNG ADULT:
INDICATIONS AND OUTCOMES. ARE THEY JOINT PRESERVING?
Chairman: A. Campacci (Italy)

7.45  Acetabular side
M. Bankes (United Kingdom)

8.00  Femoral side
L. Turchetto (Italy)

8.15  Discussion

---

7.45-8.30  INSTRUCTIONAL COURSE
MANAGEMENT OF PERIPROSTHETIC FRACTURES
Chairman: F. Haddad (United Kingdom)

7.45  When and how to revise
A. Manktelow (United Kingdom)

7.57  Fixation and management of bone stock
G. Zatti (Italy)

8.09  Solutions for complex cases
G. Volpin (Italy)

8.21  Discussion
8.30-9.26 | ORAL PRESENTATIONS
DUAL MOBILITY AND NEW APPROACHES
Chairmen: S. Jones (United Kingdom), N. Santori (Italy)

8.30 | Dual mobility socket in patients with increased risk of dislocation
G. Gallinari, A. Rossi, R. Sotiri, D. Munegato, G. Zatti (Italy)

8.37 | Prevention of dislocation in THA with dual mobility acetabular cup. 14 years follow up with RIPO DATABASE in elderly patients with Alzheimer and the neuromuscular system diseases
G. Lucidi, M. Trono, A. Morigi, A. Trimarchi (Italy)

8.44 | The use of dual mobility bearings in total hip arthroplasty. A multicentre review of 750 patients with minimum 1-year follow up
S. Abouel-Enin, M. Puthiya Veettil, J. Griffiths, S. Jones, D. Dunlop, J. Latham (United Kingdom)

8.51 | Eponyms in orthopedic surgery, approaches to the hip
M. Somford, D. Hoornenborg, J.I. Wiegerinck, S. Bolder, W. Schreurs (The Netherlands)

8.58 | Anterior longitudinal osteotomy of greater trochanter and prevention of early dislocation in total hip arthroplasty: updated results
M.F. Surace, F. Buggè, L. Monestier (Italy)

9.05 | Transosseous “over the top” reconstruction of capsule and tendons and the prevention of hip dislocation
W. Sioen (Belgium)

9.12 | Minimally invasive superior capsulotomy: new frontiers for total hip arthroplasty. A preliminary experience
N. Capuano, A. Del Buono (Italy)

9.19 | Heterotopic ossifications in posterolateral-approach total hip replacement: incidence, risk factors and clinical relevance
L. Andreani, I. Castellini, M. Lisanti, C. Picece, P. Parchi, E. Bonicoli (Italy)
9.26-10.30  **ORAL PRESENTATIONS**  
**ANTERIOR APPROACH**  
Chairmen: N. Confalonieri (Italy), A.J. Timperly (United Kingdom)

9.26  Distal extension of the direct anterior approach - A cadaveric feasibility study  
S. Ghijselings, K. Corten, J.-P. Simon (Belgium)

9.33  Hip abductor muscles function: a surface-electromyography analysis after antero-lateral vs direct anterior minimally invasive approaches in total hip arthroplasty  
M. Villano, I. Felici, M. Giorgini, M. Tani (Italy)

9.40  Learning curve for mini-invasive anterior hip approach: multicentric study  
M. Trono, V. Alecci, M. Ceccarelli, C. Pagnuzzato, F. Pleitavino,  
P. Prati, L. Romano, C. Trevisan, M. Valente, A. Trimarchi, G. Lucidi (Italy)

9.47  Anterior minimally invasive surgery for total hip replacement: learning curve, experience and outcomes of a District General Hospital Surgeon  
O. Shannak, A. Kumar, E. Crawfurd (United Kingdom)

9.54  Anterior minimally invasive surgery (AMIS) - What we learned in the past 7 years  
S. Ovnic, I. Bricman, J. Merkac, V. Kasnik (Slovenia)

10.01  Direct anterior approach in total hip replacement: complications and early results in a series of 209 patients  
L. Rizzi, C. Castelli (Italy)

10.08  Direct anterior approach vs postero-lateral approach with a same implant in 60 patients. Clinical and radiological findings and review of literature  
E. Bonicoli, I. Castellini, L. Andreani, N. Piolanti, E. Neri, M. Lisanti (Italy)

10.15  One-stage bilateral total hip arthroplasty through a minimally invasive anterior approach: functional outcomes and complications in 20 patients  
G. Petridis, M. Nolde (Germany)

10.22  Biomechanical restoration of hip parameters is successful using the direct anterior approach with a tapered wedge stem  
C. Trevisan, R. Klumpp, S. Piscitello, P. Leone, R. Compagnoni (Italy)
8.30-9.26 ORAL PRESENTATIONS

REVISION: FEMORAL SIDE

Chairmen: S. Ghera (Italy), J. Nolan (United Kingdom)

8.30 Revisions of hip resurfacings from an independent specialist centre
K. De Smet, C. Van Der Straeten (Belgium)

8.37 Femoral osteolysis and its implication in revision hip surgery
S. Panchani, T. Board (United Kingdom)

8.44 A trench lozenge osteotomy to remove femoral components in hip
prosthesis revision surgery: a successful sparing technique
E. Castaman, A. Albarkouni (Italy)

8.51 Revision of cold-welded hip implants; Is isolated femoral head
exchange a simple procedure?
A. Zaghloul, H. Hothi, R. Whittaker, G. Blunn, J. Skinner, A. Hart
(United Kingdom)

8.58 The bioball taper adapter in revision hip arthroplasty
T. Waters, S. West, G. Schaller, B. Bloch (United Kingdom)

9.05 Cement in cement femoral component revision in the multiply revised
hip: results with a minimum follow up of 5 years
N. Sandiford, M. Wilson, M. Hubble, J. Simon, J. Howell
(United Kingdom)

9.12 Evaluating the use of the RECLAIM TM modular hip system in revision
hip surgery - Initial findings
J. Yates, J. Fountain, S. Scott, P. Carter (United Kingdom)

9.19 Modular proximal femoral endoprosthetic replacement for non-
neoplastic conditions
A. Khajuria, D. MacDonald, L. Jeys (United Kingdom)
9.26-10.30 ORAL PRESENTATIONS

REVISION: ACETABULAR SIDE
Chairmen: V. Salini (Italy), E. Smith (United Kingdom)

9.26 Trabecular metal cups for acetabular revision surgery
G. Solarino, G. Vicenti, A. Piazzolla, L. Montenegro, A. Panella, B. Moretti (Italy)

9.33 Four year results with a minimum of three year follow up of a modular trabecular metal cup in management of acetabular reconstruction following adverse reaction to metal debris with alval from single surgeon in the United Kingdom
S. West, M. Mussa, S. Parakambalath (United Kingdom)

9.40 Acetabular revision with Trabecular Metal™ Cup: clinical and radiographic results at 10 years follow-up
F. Bassini, E. Miani, A. Belloni (Italy)

9.47 Metallic augments with cemented sockets and impaction grafting in acetabular reconstruction
N. Lokikere, H. Wynn Jones, T. Board, N. Shah, C.A. Jakaraddi (United Kingdom)

9.54 Bone impaction grafting with a trabecular metal revision cup show promising early results
M. Mohaddes, B. Shareghi, J. Kärrholm (Sweden)

10.01 Minimum 12 month follow-up of trabecular titanium cups for acetabular revisions with cavitary defects
M. Uma, A.J. Soler, A. Sharma, Y. Kalairajah (United Kingdom)

10.08 Revision hip arthroplasty with gription porous coating acetabular shells and augments
S. Zanasi (Italy)

10.15 Results of a modular polyaxial stemmed cup in patients with previous acetabular revisions
M. Cadossi, G. Tedesco, F.L. Garcia, M. Tabaza, A. Mazzotti, A. Sambri, G. Pignatti (Italy)

10.22 Massive pelvic allograft reconstruction of the acetabular area: management of hip mechanical failure
D. Donati, M. Depaolis, C. Romagnoli, M. Romantini, F. Mariotti (Italy)
8.30-9.26  ORAL PRESENTATIONS
ARTHROSCOPY AND CONSERVATIVE SURGERY
Chairmen: S. Konan (United Kingdom), F. Randelli (Italy)

8.30  FAI and lumbar stiffness
A. Aprato, C. Alluto, P. Dainese, M. Roppolo, M. Gollin,
E. Rebaglietti, A. Massè (Italy)

8.37  Clinical and functional outcomes of arthroscopic treatment for
femoroacetabular impingement following slipped capital femoral
epiphysis
S. Basheer, B. Balasubramanian, R. Maheshwari, S. Madan,
A. Cooper (United Kingdom)

8.44  A new mini-open anterior-oblique approach for femoroacetabular
impingement
K. Narayananasetty, A. Massraf (United Kingdom)

8.51  Minimally invasive periacetabular osteotomy using a modified Smith-
Peterson approach: technique and early outcomes
O. Khan, S. Padmanabhan, D. Agolley, M. Ajay, J. Witt
(United Kingdom)

8.58  Periacetabular osteotomy through a minimally invasive approach:
radiological correction and complication profile
B. Pincher, B. Balasubramanian, S. Abouel-Enin, C. Blakey,
S. Madan (United Kingdom)

9.05  Tranexamic acid reduces the blood loss and transfusion requirements
following periacetabular osteotomy
G. Wassilew (Germany)

9.12  Treatment of AVN using the chamber induction technique and
biotechnologies: indications and clinical results
G.M. Calori, M. Colombo, E. Mazza, S. Mazzola, T. Talamonti,
C.F. Minoli (Italy)

9.19  Laser osteoperforation - A novel minimally invasive technique for
treatment of avascular necrosis of the femoral head
M. Kayes*, H. Hainz* (United Kingdom, *Bangladesh)
9.26-10.30 ORAL PRESENTATIONS
IMAGING, CONSERVATIVE AND PEDIATRICS
Chairmen: L. Pierannunzii (Italy), J. Witt (United Kingdom)

9.26 Does the femoral head/neck contour in the skeletally mature change over time?
L.M.W. Gala, V. Khanna*, K.S. Rakhra*, P.E. Beaulé* (Italy, *Canada)

9.33 High resolution non-contrast 3-Tesla magnetic resonance imaging of the hip
J. Lynch, O. Diamond, C. McBryde, S. James (United Kingdom)

9.40 Imaging of occult hip fractures: the effectiveness of CT and MRI
H. Rehman, R. Clement, F. Perks, T. White (United Kingdom)

9.47 Radiographic evaluation of hip resurfacing: validation of a new zonal system
A. Calistri, C. Van Der Straeten*, G. Grammatopoulos**, C. Villani, K. De Smet* (Italy, *Belgium, **United Kingdom)

9.54 Clinical and MRI results in 67 patients operated for gluteus medius and minimus tendon tears with a median follow-up of 4.6 years
K. Makridis, M. Lequesne, H. Bard, P. Djian (France)

10.01 Proximal femur reconstruction in the first decade of life: the challenge of hip reconstruction in a growing patient
M. Manfrini, L. Campanacci, D. Donati (Italy)

10.08 Late correction of neck deformity in healed slipped capital femoral epiphysis – An option with encouraging clinical outcomes
B. Balasubramanian, S. Madan (United Kingdom)

10.15 Hip joint replacement in children
V. Neverov, V. Baskov (Russia)

10.22 Infection and failure rates following THR in septic arthritis: a case controlled study
M.C. Papanna, R. Chebbout, S. Buckley, A. Hamer (United Kingdom)
8.30-9.26  ORAL PRESENTATIONS

TRIBOLOGY
Chairmen: G. Logroscino (Italy), K. Tucker (United Kingdom)

8.30  Does the use of a ceramic head eliminate the risk of trunnionosis?
A. Di Laura, R. Whittaker, H. Hothi, J. Meswania, Y.-M. Kwon*,
G. Blunn, J. Skinner, A. Hart (United Kingdom, *USA)

8.37  Implant wear in total hip arthroplasty: a systematic review and
meta-analysis of metal on polyethylene versus ceramic on
polyethylene components
O. Gosling, N. Hussain*, T. Ferreri*, E. Schemitsch**, A. Atrey
(United Kingdom, *USA, **Canada)

8.44  Wear in total hip arthroplasty using ceramic head: 10 years maximum FU
G. Malerba, C. De Ieso, G. Logroscino, F. Barberio, V. De Santis,
G. Maccararo (Italy)

8.51  The maxera cup large diameter heads ceramic - ceramic
P. Caldora, D. Lup, R. Guarracino, G. Ciarpaglini, E. Manzi, E. Nizami
(Italy)

8.58  Comparative effectiveness of the most commonly used total hip
replacement components in the U.S.: comparison of metal and ceramic
heads with metal on highly crosslinked polyethylene liners
G. Cafri, E.W. Paxton, R. Love, S.A. Bini, S.M. Kurtz (USA)

9.05  Functional and clinical outcome of THA using 4th generation large
diameter ceramic couples. Is there an economical justification?
S. Gopal, R. Raman, A. Nisar, V. Johnson, C. Shaw (United Kingdom)

9.12  Mis-seating of Trident ceramic acetabular liners: a 6-year audit of
incidence and revision rate in South Devon, UK
T. Law, A. Roberton, M. Ashworth (United Kingdom)

9.19  Is wear of dual mobility cup lower or upper than conventional cup?
Results analysis of an in vitro standard test
A. Ferreira, N. Moutton, T. Aslanian, J.-L. Prudhon, J. Caton (France)
9.26-10.30  ORAL PRESENTATIONS
PERIPROSTHETIC FRACTURES, MEGAPROSTHESIS AND TUMOURS
Chairmen: F. D’Angelo (Italy), J. Stockley (United Kingdom)

9.26  Periprosthetic femoral fracture due to sideways fall: a comparative analysis on the effect of stem design
L. La Barbera, A. Anticonome, C. Ottardi, T. Villa, L. De Napoli, M. Franceschini, G. Mineo (Italy)

9.33  Review of periprosthetic fractures in hip resurfacing
C. Gray (United Kingdom)

9.40  Late periprosthetic fractures of the femur after total hip replacement
C.R. Alfonso, M. Laus (Italy)

9.47  Modular femoral tapered revision stems in treatment of periprosthetic hip fractures
D. Munegato, R. Sotiri, A. Rossi, M. Pungitore, A. Bruschetta, J. Graci, G. Zatti (Italy)

9.54  The outcome of the use of distally locked uncemented femoral stem (Cannulok) in Vancouver B2, B3 periprosthetic proximal femoral fracture in elderly population
A. El-Bakoury, H. Hosny, M. Williams, J. Keenan, R. Yarlagadda (United Kingdom)

10.01  The role of megaprostheses in the treatment of septic non unions and critical size bone defects
G.M. Calori, M. Colombo, E. Mazza, S. Mazzola, T. Talamonti, C.F. Minoli (Italy)

10.08  Silver-coated hip prosthesis reduce the infection rate in oncologycal limb salvage surgery
F. Donati, A. Ziranu, C. Perisano, S. Spinelli, G. Di Giacomo, V. De Santis, G. Maccuro (Italy)

10.15  The use of rapid prototyping pelvic custom made prosthesis associated to bone cutting jigs in pelvic tumor resection
D. Donati, M. Depaolis, C. Romagnoli, M. Romantini, T. Frisoni (Italy)

10.22  Multicentre clinical study for evaluation of a collagen-hydroxyapatite composite scaffold in revision hip surgery
G. Johnson, R. Raman, I. Andreolli*, M. Bussaca*, G. Pignatti* (United Kingdom, *Italy)

10.30-10.45  Coffee break
10.45-11.15 CROSS-FIRE
ANTERIOR VS POSTEROLATERAL APPROACH: FASHION AND RESULTS
Chairman: B.M. Marelli (Italy)

10.45 Anterior
   F. Randelli (Italy)

10.52 Posterior
   A. Manktelow (United Kingdom)

10.59 Debate

11.05 Discussion

11.15-12.15 SYMPOSIUM
PEDIATRIC HIP
Chairmen: R. Giacometti Ceroni (Italy)
   S. Madan (United Kingdom)

11.15 DDH
   M. De Pellegrin (Italy)

11.25 SCFE
   A. Massè (Italy)

11.35 Perthes’ disease
   J. O’Hara (United Kingdom)

11.45 Cerebral palsy
   N. Portinaro (Italy)

11.55 The role of hip arthroscopy in the immature skeleton
   R. Field (United Kingdom)

12.05 Discussion

12.15-12.45 LECTURES

12.15 Periacetabular osteotomy: grey zones and limits of indication
   R. Ganz (Switzerland)

12.30 How arthroplasty registries will influence clinical practice in the next decade
   H. Malchau (USA)

12.45-14.00 INDUSTRY SYMPOSIA (see page 73)
14.00-15.00 SYMPOSIUM
REGISTRY
Chairmen: A. Blom (United Kingdom), E. Romanini (Italy)

14.00 Establishing a complete National data base of implants
M. Torre (Italy)

14.10 Mix and match: is it a real problem?
K. Tucker (United Kingdom)

14.20 Causes of failure in a Regional arthroplasty registry
A. Toni (Italy), S. Stea (Italy)

14.30 How to identify and manage outliers?
P.W. Howard (United Kingdom)

14.40 Is Registry data validated and can we afford to publish surgeon level data?
M. Porter (United Kingdom)

14.50 Discussion

15.00-15.30 CROSS-FIRE
SHORT VS STANDARD STEMS: WHAT IS THE REAL GAIN FOR THE PATIENTS?
Chairman: J. Cobb (United Kingdom)

15.00 Short
F. Falez (Italy)

15.07 Standard
J. Miles (United Kingdom)

15.14 Debate

15.20 Discussion

15.30-15.45 Coffee break
15.45-16.15  CROSS-FIRE
RESURFACING: IS THERE STILL AN INDICATION?
Chairman: S. Giannini (Italy)

15.45  Yes
   R. Treacy (United Kingdom)

15.52  No
   C. Castelli (Italy)

15.59  Debate

16.05  Discussion

16.15-17.15  SYMPOSIUM
CERAMIC IN THA
Chairmen: J. Cobb (United Kingdom), G. Solarino (Italy)

16.15  Ceramic on ceramic clinical results
   A. Toni (Italy)

16.25  The size of the head
   A. Blom (United Kingdom)

16.35  Is squeaking still a reason of concern?
   E. Smith (United Kingdom)

16.45  Is there any evidence that ceramic on poly is better than metal on poly?
   E. Vaienti (Italy)

16.55  What to do in case of breakage?
   L. Zagra (Italy)

17.05  Discussion
17.15-17.45  CROSS-FIRE
CEMENTED VS CEMENTLESS THA: IS ONE TECHNIQUE SUITABLE FOR ALL THE SEASONS?
Chairman: J. Skinner (United Kingdom)

17.15  Cemented
A.J. Timperley (United Kingdom)

17.22  Cementless
F. Biggi (Italy)

17.29  Debate

17.35  Discussion

17.45-18.45  SYMPOSIUM
THE EVOLUTION OF HIP SURGERY AND NEW INSIGHTS
Chairmen: P. Kay (United Kingdom), F.S. Santori (Italy)

17.45  Evaluation of outcomes in 2015
S. Konan (United Kingdom)

17.55  New developments in clean air systems for joint replacement
A. Thomas (United Kingdom)

18.05  Which is the most reliable laboratory test for infected THA?
L. Drago (Italy)

18.15  Histological and ultrastructural study of particulate materials produced in THR: the relationship with loosening
U. Pazzaglia (Italy)

18.25  Revision total hip arthroplasty: factors associated with re-revision surgery
S.A. Bini (USA)

18.35  Discussion
17.15-17.45  ORAL PRESENTATIONS  
AWARD SESSION  
Chairmen: F. Haddad (United Kingdom) L. Zagra (Italy)  

17.15 Registry data errors in the National Hip Fracture Database  
D. Cundall-Curry, J.E. Lawrence, C. Gooding (United Kingdom)  

17.21 Assessment of the relationship between pelvic tilt and functional acetabular position with EOS 2D/3D technology  
M. Loppini, A. Della Rocca, E. Caldarella, P. Ragucci, N. Trenti, L. Balzarini, G. Grappiolo (Italy)  

17.27 Surrogate markers of long-term outcome in primary total hip arthroplasty: a systematic review  

17.33 Functional and radiological outcomes of ceramic on ceramic bearing (CoC) in cementless total hip arthroplasty: 10 years follow up  
S. Sarmah, Y.J. Lau, J. Witt (United Kingdom)  

17.39 Is there effect of hydroxyapatite coating on the migration of the SL-PLUS hip stem? A RSA, prospective double blind randomized controlled trial  
D. Haverkamp, D. Hoornenborg, H. van der Vis, J. Cheung, L. Beimers, I. Sierevelt (The Netherlands)
17.45-18.45 RESIDENTS’ AWARD SESSION
Chairmen: F. Haddad (United Kingdom), G. Huri (Turkey), J. Vide (Portugal), L. Zagra (Italy)

17.45 Learning curve in management of acetabular both-column fractures: does experience in pelvic surgery modify the results? A. D’Amelio, A. Aprato, A. Nicodemo, A. Massè (Italy)

17.51 Femoral cortical index as a spy of bone fragility in patients with hip fracture C. Rao, M. Feola, E. Gasbarra, U. Tarantino (Italy)

17.58 Hip arthroscopy in femoro acetabular impingement: chondral damage is a good predictor of outcome R.J. Tansey, T. Fayad, S. Konan, F.S. Haddad (United Kingdom)

18.04 No difference in blood loss following total hip replacement with three thromboprophylactic regimes (enoxaparin, dabigatran or rivaroxaban) - results from a randomized, double-blind clinical trial M. Wasko, K. Bobecka-Wesolowska, I. Pokrzywnicka-Gajek, J. Kowalczewski (Poland)

18.10 Potential markers of systemic toxicity induced by metal ions in patients with hip resurfacing G. Tedesco, M. Cadossi, L. Savarino, A. Mazzotti, A. Sambri, N. Baldini, S. Giannini (Italy)

18.22 What is the natural history of asymptomatic pseudotumours associated with metal-on-metal hip resurfacings? G. Matharu, S. Ostlere, D. Murray, H. Pandit (United Kingdom)

18.28 Supercap approach in hip replacement after femoral neck fractures M. Scaglione, L. Fabbri, E. Cei, F. Celli, F. Casella, G. Guido (Italy)

18.34 Use of a porous tantalum monoblock acetabular cup in primary THA: 10 to 15 year follow-up R. Russo, V. Mastroianni, L. Tarduuri, O. Galasso, G. Gasparini (Italy)

18.40 Acetabular spacers in two stage hip revision: does it worth? A controlled clinical trial G. Burastero, G. Carrega, M. Basso, L. Cavagnaro, L. Felli (Italy)
18.45-19.30 OPENING CEREMONY

18.45 Welcome
  F. Haddad (United Kingdom), L. Zagra (Italy)

18.50 The British Hip Society: a great legacy
  J. Nolan (United Kingdom)

19.05 A concise overview of the hip surgery in Italy
  R. Giacometti Ceroni (Italy)

19.20 Awards
ROOM PORTA

7.45-8.30 INSTRUCTIONAL COURSE
MANAGEMENT OF THA DISLOCATION
Chairman: R. Rossi (Italy)

7.45  Diagnosis and prevention
F. D’Angelo (Italy)

8.00  Treatment
S.A. Jones (United Kingdom)

8.15  Discussion

ROOM MONTI

7.45-8.30 INSTRUCTIONAL COURSE
INDICATIONS, TECHNIQUES AND OUTCOMES OF HIP ARTHROSCOPY
Chairman: M. Bankes (United Kingdom)

7.45  Indications
J. Witt (United Kingdom)

7.57  Techniques
N. Santori (Italy)

8.09  Outcomes
V. Khanduja (United Kingdom)

8.21  Discussion

ROOM PARINI

7.45-8.30 INSTRUCTIONAL COURSE
THA in DDH
Chairman: R. Binazzi (Italy)

7.45  The acetabulum
J. O’Hara (United Kingdom)

8.00  The femur
G. Grappiolo (Italy)

8.15  Discussion
**8.30-9.26 ORAL PRESENTATIONS**

**MODULARITY AND TAPER**
Chairmen: G. Blunn (United Kingdom), C. Castelli (Italy)

8.30  Fretting and corrosion - what are the influencing factors?
T. Pandorf, S. Kurtz*, R.M. Streicher** (Germany, *USA, **Switzerland)

8.37  Femoral head taper corrosion assessment of a 19-year retrieval database
P. Aldinger, J. Cartner*, C. Li*, D. Collins*
(Memphis - USA, *United Kingdom)

8.44  Taper and bearing surface analyses of CoCrMo and oxidized Zr-2.5Nb heads after long-term hip simulator testing
C. Li, A. Parikh, V. Pawar* (United Kingdom, *USA)

8.51  Adverse reaction to metal debris in uncemented metal on polyethylene Accolade-Trident total hip replacement. A case series and literature review
C. Gee, W. Poole, D. Wilson, J. Gibbs, P. Stott (United Kingdom)

8.58  Stem-neck modular total hip arthroplasty: possible mechanical effects!
P. Antinolfi, M. Chillemi, G. Placella, A. Caraffa, G. Cerulli (Italy)

9.05  Recall ABGII modular system: Kaplan Meyer at maximum of 6 years in a series of 170 consecutive patients: clinical results, MRI study, metal ions and patient-oriented results
A. Calistri, V. Calistri, S. Sarti, G. Giuliani, O. Moreschini, C. Villani (Italy)

9.12  Primary total hip arthroplasty with modular neck stems. Our experience at 8-year follow-up
L. Nuñez, A. Druetto (Argentina)

9.19  Early to mid-term results of an uncemented, modular, metal-on-metal total hip arthroplasty
M. Mitchell, B. Robinson*, R. Brighton (United Kingdom, *Australia)
9.26-10.30 ORAL PRESENTATIONS
METAL ON METAL
Chairmen: R. Civinini (Italy), J. Skinner (United Kingdom)

9.26 Differences in the management of metal on metal hips: international multi-disciplinary teams
(United Kingdom,*Finland, **Germany, ***USA)

9.33 How should we follow-up asymptomatic metal-on-metal hip resurfacing patients? A prospective longitudinal cohort study
G. Matharu, A. Low, S. Ostlere, D. Murray, H. Pandit
(United Kingdom)

9.40 Conditions influencing cobalt and chromium circulating ions level in metal-on-metal patients
A. Beraudi, S. Stea, D. De Pasquale, S. Catalani, M. Baleani, B. Bordini, M. Amabile, S. Canaider, E. Guerra, A. Toni
(Italy)

9.47 The problem of metal on metal, our experience in 59 cases
A. Spreafico, G. Pavone, C. Castelli, U.E. Pazzaglia, G. Zarattini
(Italy)

9.54 557 metal-on-metal corail-pinnacle total hip replacements with 36 mm heads. A 5 year follow up: levels of ARMD remain low despite a comprehensive screening program
A. Atrey, N. Hussain*, A. Shepherd, S. Young
(United Kingdom, *Canada)

10.01 Mid terms results of 486 Conserve Plus® hip resurfacings. Medium follow up at 7.2 years
V. Bellotti, C. Cardenas, E. Astarita, E. Moya, F. De Meo, M. Ribas
(Spain)

10.08 Hip arthroplasty with metal-on-metal tribology: 10-year follow-up and ionic release trend in 36 mm head implants
R. Sangaletti, F. Barbieri, C.C. Castelli
(Italy)

10.15 Medial calcar erosion is associated with synovial thickness in patients with ASR XL total hip arthroplasty
(USA, Australia)

10.22 Metasul 28 mm MoM total hip replacements; adverse reaction to metal debris incidence & outcome at 10 years
S. Singh, R. Kotwal, P. Roberts
(United Kingdom)
8.30-9.26    ORAL PRESENTATIONS

REVISION

Chairmen: J. Latham (United Kingdom), B. Moretti (Italy)

8.30 One fifth of revision acetabular components re-revised for symptomatic aseptic loosening do not meet radiological criteria of loosening

8.37 An algorithmic approach to acetabular component removal, in case of intra-pelvic cup migration
R. Civinini, V. Berti, C. Corvino, M. Villano, M. Innocenti (Italy)

8.44 The use of balloon catheter into the infrarenal aorta for prevention of massive hemorrhage during revision hip replacement at high risk: a case report
F. Niccolai, P.D. Parchi, E. Bonicoli, L. Andreani, M. Lisanti (Italy)

8.51 Reconstruction of failed acetabular component in the presence of severe acetabular bone loss: a systematic review and pooled analysis
A. Volpin, S. Konan, F. Haddad (United Kingdom)

8.58 Impaction bone grafting using a 50:50 composite of morselised allograft and demineralised bone matrix in comparison with bone graft alone for revision hip arthroplasty
R. Mohammed, A. Fadulelmola, P. Siney, B. Purbach (United Kingdom)

9.05 Multiple revision hip arthroplasty: 30 years of aseptic loosening

9.12 Revision acetabular reconstruction in Paprosky II c and III A,B lesions
V. Murylev, G. Kavalerskiy, Y. Rukin, A. Muzychenkov (Russia)

9.19 The use of dual mobility components in revision total hip arthroplasty
G. Anania (Italy)
9.26-10.30  ORAL PRESENTATIONS
INFECTION
Chairmen: M. Mariconda (Italy), A. Thomas (United Kingdom)

9.26   “Infection compliance” ... A system to link data about patients with infected joint replacements
K. Tucker, I. McNamara, M. Pickford, R. Armstrong (United Kingdom)

9.33   Analysis of the risk factors predisposing to periprosthetic hip infection and treatment options
F. Donati, M. Fantoni, M. Saracco, G. Cerulli, G. Logroscino (Italy)

9.40   Acute late infection in metal-on-metal hip arthroplasty: another severe complication?
R. Macnair, S. Parker, E. Clatworthy, M. Maheson, H. Hughes, A. John, S. Jones (United Kingdom)

9.47   The role of novel inflammatory biomarkers in the diagnosis and prognosis of periprosthetic joint infection: a prospective cohort study
F. Randelli, M. Brioschi, S. Favilla, D. Maglione, F. Pace, M. Corsi, E. Galliera (Italy)

9.54   “Synovasure” are we really sure?
E. Martin, F. Qamar, A. Ng, L. Koch, A. Shetty (United Kingdom)

10.01  The outcome of two-stage revision for infected total hip arthroplasty in a tertiary centre
V. Punjabi, M.S. Ibrahim, F.S. Haddad (United Kingdom)

10.08  Does cemented or cementless single-stage exchange arthroplasty of chronic periprosthetic hip infections provide higher infection eradication rates than a two-stage? A systematic review
D. George, N. Logoluso*, S. Scarponi*, F. Haddad, C. Romano* (United Kingdom, *Italy)

10.15  Partial implant retention in revision hip arthroplasty for infection
M. El-Husseiny, F. Haddad (United Kingdom)

10.22  Acetabular reconstruction using tantalum augments and impaction graft in single stage revision for periprosthetic infection
A.M. Ebied, A.A. Ebied (Egypt)
8.30 ORAL PRESENTATIONS
TRAUMA (part 1)
Chairmen: G.M. Calori (Italy), T. Waters (United Kingdom)

8.30 Surgical hip dislocation for the management of irreducible posterior hip dislocation with femoral head fracture: a case series
K. Gharanizadeh, M. Abolghasemian (Iran)

8.37 Minimal-invasive posterior approach in the treatment fractures of the acetabulum: the Italian experience, considerations and indication after 10 years
R. Spagnolo, F. Caroli, P. Capitani, G.A. La Maida, F. Sala, F. Bove, F. Luceri (Italy)

8.44 Techniques for reduction of acetabular fractures involving the quadrilateral plate
A. Panella, F. Fortunato, C. Mori, G. Solarino, R. Pascarella, B. Moretti (Italy)

8.51 Acute fixation and total hip replacement for the management of acetabular fractures in patients over 55
M.H. Arshad, F. Malagelada, P. Bates, P. Culpan (United Kingdom)

8.58 Delayed total hip arthroplasty after acetabular fracture
A. Pantalone, D. Vanni, M. Guelfi, F. Fascione, E. Andreoli, A. Belluati, V. Salini (Italy)

9.05 Clinical outcome and survival of total hip arthroplasty after acetabular fracture: a case-control study

9.12 Minimally invasive posterior-lateral approach with superior capsulotomy vs conventional posterior-lateral approach in medial femoral neck fractures in elderly. A retrospective study
N. Capuano, F. Carbone, A. Del Buono, F. Sadile (Italy)

9.19 Orthopaedic surgery for fracture of hips in a mixed-use emergency theatre – Does it compromise patients’ interest?
S. Agarwal, O. Khan, M. Lemon (United Kingdom)
9.26-10.30 ORAL PRESENTATIONS
TRAUMA (part 2)
Chairmen: F. Biggi (Italy), J. Palan (United Kingdom)

9.26 Dislocation and complications after THR for acute femoral neck fractures
A. Turaev, A. Radhakrishnan, N. Shah (United Kingdom)

9.33 The experience of dual mobility cup total hip arthroplasty in patients with fractured neck of femur
S.J. Bonczek, M. Bhamra, A. Ng (United Kingdom)

9.40 Retentive cup arthroplasty in selected hip fracture patients - A prospective series followed for a two year minimum follow-up period
M. Yassin, A. Garti, M. Khatib, M. Weisbrot, D. Robinson (Israel)

9.47 Outcome of dislocation after hemiarthroplasty - A retrospective review in two district general hospitals
D. Baskaran, S. Jehan, I. Burkinshaw, A. Ng, D. Omonbude, F. Howell, T. Bagga (United Kingdom)

9.54 Dynamic locking plate vs simple cannulated screws for nondisplaced intracapsular hip fracture: a comparative study
Y. Warschawski, N. Snir, E. Steinberg (Israel)

10.01 Internal fixation of intracapsular neck of femur fractures - Two-hole DHS or cannulated hip screws?
S. Woods, I. Vidakovic, A. Al-Mothenna, R. Mayahi (United Kingdom)

10.08 Intramedullary nails versus extramedullary implants for extracapsular hip fractures: 1-year mortality and perioperative bleeding in a comparative retrospective study of 615 patients
A. Angeloni, M. Begnini, D. Gaddi (Italy)

10.15 Clinical outcome of peritrochanteric fractures treatment with an antergrade trochanteric static lag screw nail (InterTAN)
P. Karampinas, J. Vlamis, E. Papadelis, E. Kavroudakis, S. Pneumaticos (Greece)

10.22 Intramedullary fixation of complex fractures in proximal femur
N. Tzachev, N. Ivanov, N. Hariskov, A. Iotov (Bulgaria)
8.30-9.26  ORAL PRESENTATIONS
THA IN DDH
Chairmen: L. Marega (Italy), R. Treacy (United Kingdom)

8.30  Cementless threaded cups in combination with/without cotylopasty for the treatment of hip dysplasia - 12-22 year follow up. An independent study
S. Kutty, N. Poulis*, S. Todorov**, N. Bohler*
(United Kingdom, *Austria, **Bulgaria)

8.37  Cementless acetabular reconstruction in dysplastic hips: five year results of total hip arthroplasty using the 15 degrees face changing cup
M. Puthiya Veettil, A. Ward, E. Smith (United Kingdom)

8.44  Custom made 3D printed acetabular augments for primary THA in severe hip dysplasia
K. Govaers, J. Robberecht (Belgium)

8.51  MODULUS stem for developmental hip dysplasia: Long-term follow-up
L. Perticarini, S.M.P. Rossi, F. Benazzo (Italy)

8.58  Cementless cone stem and metal-on-metal articulating surface for the treatment of arthritis following congenital hip disease
R. Binazzi (Italy)

9.05  Total hip arthroplasty with shortening osteotomy in CROWE type III-IV developmental dysplasia
G. Vicenti, G. Rollo, M. Carrozzo, G. Picca, B. Moretti, G. Solarino (Italy)

9.12  Long term results of the Charnley low-friction arthroplasty with bulk autograft of the femoral head for developmental dysplasia of the hip
D. Shaw, V. Raut, P. Bobak, P. Siney, H. Wynn Jones, T. Board, M. Wroblewski (United Kingdom)

9.19  Clinical outcome of total hip arthroplasty (THA) after iliofemoral distraction in hip dislocations
S. Bondarenka, M. Akonjom, V. Filipenko (Ukraine)
9.26-10.30  ORAL PRESENTATIONS
PRIMARY THA (part 1)
Chairmen: F. Falez (Italy), J. Miles (United Kingdom)

9.26 The influence of obesity in cup positioning during total hip replacement
M. Franceschini, F. Calabro, G.V. Mineo, M.M. Parrini (Italy)

9.33 An anatomical study supporting postero-inferior placement of elevated
liners for hip replacement
D. Mitchell, L. MacDonald, N. Eizenberg (Australia)

9.40 Dare you still use screws? Prospective densitometric study
on Trabecular Titanium™ with screw fixation periacetabular
osseointegration: outcomes at 1-years follow-up
M. Mizushima, R. Ichikawa, T. Tokashiki, K. Yonemori (Japan)

9.47 Modular trabecular titanium cups in complex primary cases
B. Steno (Slovakia)

9.54 Our experience in primary THA using Delta cup TT
M. Gramazio, G. Cattaneo, E. Carriere, A. De Caro (Italy)

10.01 Minimum three-years clinical and radiographic results of a novel,
porous-coated press-fit, tapered titanium hip stem
A. Lilikakis, L. Kritharis, E. Michelinakis (Greece)

10.08 Second generation tapered femoral cementless stem in total hip
arthroplasty: a minimum 15-year follow-up study
i. De Martino, P. Sculco, R. D’Apolito*, V. De Santis*, G. Gasparini*
(USA, *Italy)

10.15 Excellent mid-term results of the porous and hydroxyapatite coated Bi-
Metric femoral stem
J. Griffiths, Z. Borton, S. Cheung, T. Briant-Evans, J. Britton,
G. Stranks (United Kingdom)

10.22 10-year clinical outcomes following THR with the Müller low profile cup
A. Unnithan, J. Nutt, P. Mitchell, J. Rosson (United Kingdom)

10.30-10.45  Coffee break
10.30-11.40 RESIDENTS’ SESSION
CONSERVATIVE AND TRAUMA
Chairman: M. Lisanti (Italy), E. Turhan (Turkey)

10.30 Extracapsular vs standard approach in hip arthroscopy: our experience
M. Scorianz, P.O. Di Benedetto, A. Fiocchi, E. Di Benedetto,
A. Causero (Italy)

10.37 Hip arthroscopy - A new vision about the hip pathology. 3 years
experience with the out-inside technique
J. Esteves, P. Simas, J. Pinto, R. Ferreira, D. Pinto, M. Tapadinhas
(Portugal)

10.44 Surgical dislocation for pediatric and adolescent hip deformity
N. Guindani, O. Eberhardt*, T. Wirth*, M.F. Surace, P. Cherubino,
F.F. Fernandez* (Italy, Germany)

10.51 The management of osteonecrosis of the femoral head: current
practice of members of the British Hip Society
H. Colaco, J. Davidson, D. Davenport, M. Norris, M. Bankes, Z. Shah
(United Kingdom)

10.58 Capsular detensioning in hip osteoarthritis
G. Placella, A. Speziali, M. Chillemi, M.M. Tei, G. Cerulli (Italy)

11.05 The influence of acetabular and proximal femoral morphology on the
femoral neck and trochanteric fractures
A. Tokyay, M. Güven, M.E. Encan, E. Okay (Turkey)

11.12 Rethinking of tip apex distance with a new cephalomedullary nailing
device (PFNA) for hip fracture fixation
K. Singisetti (United Kingdom)

11.19 Shortening and varus collapse after femoral neck fractures in young
patients
R. Carbonell Escobar, R. Fernandez Fernandez, E. Gil Garay (Spain)

11.26 The use of cable plating and a single strut allograft in the treatment of
periprosthetic femoral fractures
J. Manara, J. Mathews, H. Sandhu (United Kingdom)

11.33 The effect of delay to surgery on outcome and length of stay following
periprosthetic fracture around the hip
S. Johnson-Lynn, A. Ngu, J. Holland, I. Carluke, P. Fearon
(United Kingdom)
11.40-12.45 RESIDENTS’ SESSION
PRIMARY THA AND COMPLICATIONS
Chairmen: A. Atrey (United Kingdom), B. Moretti (Italy)

11.40  Italian Version of University of California at Los Angeles (UCLA) Activity Score: cross-cultural adaptation
L. Di Martino, A. Calistri, M.D. Gurzi, M. Bove, K. De Smet*, C. Villani (Italy, *Belgium)

11.47  The arthroplasty discharge scoring system for fast-track total hip arthroplasty: a pilot study
V. Franceschini, M. Ponti, D. Bartoli, F. Soviero, A. Baldini (Italy)

11.54  The Puglia Register of Hip Prosthetic Implants. A five-years experience
G. Maccagnano, G. Solarino, S. Mudoni, M.T. Balducci, C. Germinario, M. Carrozzo, B. Moretti (Italy)

12.02  Is there a role for the periartricular injection in decreasing post operative pain and length of inpatient stay in primary total hip arthroplasty?
Y. Mirza, A. Ramesh, F. Haddad (United Kingdom)

12.09  Hip direct anterior approach - A natural evolution. From Watson-Jones to anterior approach with bikini line incision
J. Esteves, P. Simas, J. Pinto, J. Protásio, R. Ferreira, M. Tapadinhas (Portugal)

12.16  Revision total hip arthroplasty: diagnosing prosthetic joint infection, is hip aspiration culture study useful?
A. Radhakrishnan, A. Turaev, A. Fadulemola, H. Nagai, P. Kay (United Kingdom)

12.23  The use of Synovasure® PJI in the diagnosis of periprosthetic joint infections: first experiences
F. Randelli, S. Favilla, M. Brìoschi, D. Maglione, C. Galante, F. Pace, O. Visentin, P. Randelli (Italy)

12.30  Atipical THR infections, management
A. Façanha (Portugal)

12.37  Uncommon surgical solutions to treat lower limbs dismetries exceeding 4 centimeters, subsequent to multiple prosthetic failures
L. La Verde, D. Ortolà Morales, D. Fenga, A. Merenda, G. Miloro, M.A. Rosa (Italy)
10.45-11.15 CROSS-FIRE
ONE STAGE VS TWO STAGE: CHANGING THE STANDARD OF TREATMENT OF INFECTED THA?
Chairman: I. Stockley (United Kingdom)

10.45 One stage
F. Haddad (United Kingdom)

10.52 Two stage
C.L. Romanò (Italy)

10.59 Debate

11.05 Discussion

11.15-12.15 SYMPOSIUM
TAPEROSIS
Chairmen: F. Haddad (United Kingdom), L. Zagra (Italy)

11.15 What is the problem and patient evaluation
J. Latham (United Kingdom)

11.27 Lessons from retrievals and newest guidelines
J. Skinner (United Kingdom)

11.39 New insights from histological analysis
G. Perino (USA)

11.51 Treatment and outcomes interventions
S.A. Jones (United Kingdom)

12.03 Discussion
12.15-12.45  CROSS-FIRE
FEMORAL NECK MODULARITY: STILL JUSTIFIED?
Chairman: M. Villano (Italy)

12.15  Monoblock
G. Blunn (United Kingdom)

12.22  Modular
P. Cavaliere (Italy)

12.29  Debate

12.35  Discussion

12.45-13.05  LECTURE
Tumours of the hip: current and future solutions
R. Capanna (Italy)

13.05-14.20  INDUSTRY SYMPOSIA (see page 74 and 75)

14.20-15.20  SYMPOSIUM
REVISION OF THE ACETABULAR SIDE
Chairmen: F. Benazzo (Italy), J. Waddell (Canada)

14.20  Cages and related solutions
M. d’Imporzano (Italy)

14.28  Is iliac stability still an option?
G. Pignatti (Italy)

14.36  Cementless solutions including augments: a critical analysis
A. Manktelow (United Kingdom)

14.44  The role of cement
P. Kay (United Kingdom)

14.52  An original technique: reinforced cement under pressure
P. Garosi (Italy)

15.00  Customization of acetabular implant: the near future?
I. Stockley (United Kingdom)

15.08  Discussion
15.20-16.20 SYMPOSIUM
TREATMENT OF PROXIMAL FEMORAL FRACTURE
Chairmen: A. Capone (Italy), R. Field (United Kingdom)

15.20 Update on fixation of intra-capsular femoral fractures
A. Massè (Italy)

15.30 Hemiarthroplasty: should cement be used every time?
A.J. Timperley (United Kingdom)

15.40 Hemiarthroplasty: what about cementless stems?
S. Giannini (Italy)

15.50 THA vs Hemiarthroplasty
J. Waddell (Canada)

16.00 Hip arthroplasty in emergency
M. Lisanti (Italy)

16.10 Discussion

16.20-16.35 Coffee Break
14.20-15.23 RESIDENTS’ SESSION
PRIMARY THA AND TRIBOLOGY
Chairmen: T. Briant-Evans (United Kingdom), G. Solarino (Italy)

14.20  Body Mass Index, wound fat depth and radiographic acetabular inclination in total hip arthroplasty
O. Diamond, E. McKeever, D. Beverland (United Kingdom)

14.27  Metal on metal total hip replacement: our experience at mid-term follow-up
S. Gioiutta Iachino, V. Pavone, L. Costarella, F.R. Evola, S. Avondo, G. Sessa (Italy)

14.34  Metallosis in total hip arthroplasty: an experimental comparative study in three different bearings
A. Zaia, L. Todros, A. Pozzuoli, A. Berizzi, R. Marin, C. Iacobellis (Italy)

14.41  The direct anterior approach total hip arthroplasty learning curve: evaluation of the first 70 cases
N. Kurinčić, K. Cerneka (Slovenia)

14.48  Is minimally invasive anterior approach to the hip related to high risk of heterotopic ossification? A clinical and radiographic assessment
M. Basso, M. Formica, C. Concina, V. Alecci, F.M. Franchin (Italy)

14.55  Clinical and functional outcomes following primary total hip replacement using a minimally invasive lateral approach
S. Jain, D. Leeder, N. Shah, A. George (United Kingdom)

15.02  Early results of a conservative hip stem
M. Rizzo, A. Bernasconi, S. Cerbasi, P. Recano, G. Grillo, M. Maricônda (Italy)

15.09  New design for double tapered stem (Modulus R): preliminary results
A. Padolino, L. Perticarini, F. Benazzo (Italy)

15.16  Survival analysis of primary total hip arthroplasty with Trabecular Metal cups: a single centre experience and systematic review of the literature
G. Maggi, F. Magli, L. Matascioli, G. Ussia, P.L. Scialabba D’Amico (Italy)
15.23-16.26 RESIDENTS’ SESSION

REVISION
Chairmen: F. Haddad (United Kingdom), G. Zatti (Italy)

15.23 A minimum of 10-years follow-up of the Burch-Schneider cage and bulk allografts for the revision of acetabular bone loss
A. Iudica, G. Trivellin, I. Bonetti, A. Sandri, D. Regis, B. Magnan (Italy)

15.30 Trabecular metal for acetabular defects in hip revision surgery. Short term clinical and radiographic evaluation
G. Marongiu, A. Campacci, A. Capone (Italy)

15.24 The role of TMT and the bone defect management in the acetabular replacement
D. Vanni, A. Pantalone, D. D’Adamo, F. Fascione, E. Andreoli, A. Belluati, V. Salini (Italy)

15.44 Late results of acetabular impaction grafting in revision hip replacement using whole femoral head allograft and retaining the articular cartilage
E. Drampalos, A. Fadulelmola, J. Hodgkinson (United Kingdom)

15.51 Dual mobility acetabular components for revision of metal on metal total hip arthroplasty
M. Mancini, I. Felici, G. Munz, M. Villano, R. Civinini, M. Innocenti (Italy)

16.58 Trochanter sparing extended anterior femoral osteotomy: a novel technique in revision total hip arthroplasty
A. Jalgaonkar, S. Trakru (United Kingdom)

16.05 Results after revision of the stem in periprosthetic fractures of the hip
T. Corsini, G. Ziveri, M. Pompili, F. Pogliacomi, F. Ceccarelli (Italy)

16.12 Two stage revision with preformed spacers in infected hip arthroplasty
S. Fozzato, D. Tanas, A. Testa, F. D’Angelo, P. Cherubino (Italy)

16.16 Megaprostheses of the proximal femur: could functional outcome be comparable between oncology and complex revision?
P. Pellegrino, M. Schirò, A. D’Amelio, U. Albertini, M. Boffano, R. Piana (Italy)
16.35-17.31  ORAL PRESENTATIONS  
SHORT STEMS  
Chairmen: G. Grappiolo (Italy), S. Madan (United Kingdom)

16.35  A new short stem for total hip arthroplasty in combination with the direct anterior approach: preliminary 2 year results of a prospective study in a single institution  
N. Helmy (Switzerland)

16.42  Direct anterior approach and short femoral stem for primary total hip arthroplasty. Mid-term outcome in 500 cases  
A. Asparuhov, J. Valeshkov (Bulgaria)

16.49  Indications and early functional outcomes of a metaphyseal short stem  
M. Giannini, L. Bianchi, L. Zagra (Italy)

16.56  The Silent™ hip, neck only prosthesis in primary hip arthroplasty: a prospective study - minimum 2 year follow up  
L. Jeyaseelan, S. Kutty (United Kingdom)

17.03  A prospective study of a novel neck preserving stem: early clinical results  
P. Budassi, D. Signorelli, F. Falez, L. Marega, A. Massè, C. Brancaleone (Italy)

17.10  Bone remodelling around short metaphyseal implant in total hip arthroplasty: a DEXA study with 3 years of follow up  
C. D’arrigo, S. Scapellato, R. Alonzo, S. De Sanctis, S. Frontini, A. Ferretti (Italy)

17.17  Mid-term clinical and radiographic outcomes with a neck-preserving femoral stem  
G. Rinaldi, D. Capitani, A. Giandomenico, S. Burelli (Italy)

17.24  Mini hip arthroplasty: review of clinical outcomes at a UK centre  
K. Goswami, K. Harvey, J. Masters, C. Hill, R. King, M. Cronin, U. Prakash, S.J. Krikler, P. Foguet (United Kingdom)
17.31-18.35 ORAL PRESENTATIONS
SHORT STEMS AND TECHNIQUES
Chairmen: F. Haddad (United Kingdom), M. Villano (Italy)

17.31 Differences in intramedullary fitting pattern between fit-and-fill type short stem and tapered short stem
S. Tamura, K. Nakata, M. Kitada, H. Owaki, T. Fuji (Japan)

17.38 Biomechanical considerations in a malpositioned short stem hip implant: 5 years mid-term results
S. Barreca, D. Fenga, G. Epasto, M.A. Rosa (Italy)

17.45 Does the surgical approach influence digital templating accuracy in THA using a short modular stem?
A. Manzotti, A. Corriero, N. Confalonieri (Italy)

17.52 Fitmore® hip stem: our experience - X-ray, clinical and functional results
M. Candela, A. Cundari, G. Gentile, F. Martire, A. Crescibene (Italy)

17.59 Fourth generation cementing technique with a novel short-stem in primary total hip arthroplasty
L. Marega, P. Gnagni (Italy)

18.06 Mid term results of a short cemented femoral component
N. Santori, D. Potestio, A. Bertino, F.S. Santori (Italy)

18.13 Robotic surgery applied to total hip arthroplasty: preliminary results and technical notes
P. Caldora, P. Ciampalini, P. Guastafierro, D. Lup, R. Redi, P. De Biase (Italy)

18.20 Dysmetry after hip arthroplasty
G. Miloro, A. Merenda, G. Restuccia, V. Sessa, M.A. Rosa (Italy)

18.27 Bilateral total hip arthroplasty: one-stage versus two-stage procedure
A. Taheriiazam, F. Safdari (Iran)
16.35-17.31 ORAL PRESENTATIONS
PRACTICE AND OUTCOMES
Chairmen: P. Antinolfi (Italy), S.A. Bini (USA)

16.35 A new method to assess and quantify learning curve in hip arthroplasty
T. Aulakh (United Kingdom)

16.42 Best practice in total hip arthroplasty: review of surgical practice based on the British National Joint Registry Standardised Revision Ratio
W. Manning, J. Holland, P. Baker, P. Howard, P. Gregg (United Kingdom)

16.49 Survey of UK consultant orthopaedic surgeons on surgeon specific data in orthopaedic surgery: a pilot study

16.56 Technology optimised enhanced recovery solutions improve outcomes in total hip (THA)
P. Jayakumar, C. Vicki, J. Cope, B. Marcus, E. Peter, Z. Shah (United Kingdom)

17.03 The relationship between patient educational attainment and THA outcomes: a cohort study
L. Conway, W. Leong, N. Goodson, N. Prospero, J. Rao (United Kingdom)

17.10 YouTube as a source of patient information for total hip replacement surgery
T. Bowers, M. Dodd, D. Woodnutt (United Kingdom)

17.17 Assessing hospital cost of joint arthroplasty
F. Boniforti (Italy)

17.24 How granular should your joint registry to be?
K. Tucker, M. Porter, C. Newell, M. Pickford (United Kingdom)
17.31 The effect of tranexamic acid on transfusion rates, length of hospital stay in total joint arthroplasty
  J. Waddell, G. Hare, J. Baker, K. Pavenski, E. Schemitsch (Canada)

17.38 Local use of tranexamic acid in patients undergoing hip or knee arthroplasty to minimize the blood loss
  M. Mahran, H. Bakr, A. Abdel-Aal (Egypt)

17.45 Topical use of tranexamic acid in total hip arthroplasty. A prospective randomized controlled trial
  F. Haenen, J. Feyen, W. Vandesande (Belgium)

17.52 A novel approach to control pain following total hip replacement

17.59 The diagnosis of pulmonary embolism in orthopaedic patients at the PAH
  V. Pace, A. Sharma, U. Ramkumar (United Kingdom)

18.06 Venous thromboembolism after lower limb arthroplasty- Does chemical prophylaxis reduce the risk?
  k. Malhotra, J. Marciniak, S. Bonczek, N. Hunt (United Kingdom)

18.13 Comparative effectiveness and safety of aspirin in the prevention of venous thromboembolism following elective total joint replacement
  G. Cafri, M. Khatod, S.A. Bini, M. Inacio (USA)

18.20 Is extended venous thromboembolism prophylaxis being prescribed correctly after elective total hip and knee arthroplasty and fracture neck of femur surgery?
  Z. Mughal, S. Guo, S. Al-Ali, R. Sofat (United Kingdom)

18.27 Renal failure in post-operative lower limb primary arthroplasty patients
  l. Russo, K. Ferguson, A. Winter, G. Holt (United Kingdom)
16.35-17.31 ORAL PRESENTATIONS
TRAUMA (part 3)
Chairmen: E. Bonicoli (Italy), S. West (United Kingdom)

16.35 Primary hip prosthesis after failed internal fixation
F. Biggi (Italy)

16.42 Follow-up of 810 consecutive titanium hydroxyapatite coated
uncemented stem hemiarthoplasties for neck of femur fractures
S.z. Nawaz, A.j. Keightley, J. Granville-Chapman, K. newman,
D.S. Elliott, A. Khaleel, S.Y. Cho (United Kingdom)

16.49 Bipolar hemiarthroplasty using anterior approach in elderly patients
with femoral neck fracture - Faster rehabilitation, less complication
J. Mortazavi, R. Mostafavi Tabatabaee, A. Javaheri, N. Salehi (Iran)

16.56 Hemiarthroplasty versus total hip arthroplasty for the treatment of
femoral neck fractures. A prospective comparative study
G. Orabona, S. Cerbasi, G.G. Costa, P. Recano, M. Misasi,
M. Mariconda (Italy)

17.03 Outcomes following total hip arthroplasty for neck of femur fractures
A. Ali, A. Khaleel, S.Z. Nawaz (United Kingdom)

17.10 Experience of a district general hospital in patients treated for fractured
neck of femur with total hip arthroplasty - Is there a change in post-
operative mobility?
Z. Ali, S. Ali, T. Kane (United Kingdom)

17.17 The “kapuziner intermedial” cup and uncemented bipolar head in the
surgical treatment of medial fractures of the femoral neck in the large
elderly patients. Preliminary considerations
G. Molinari, R.M. Capelli, V. Galmarini (Italy)

17.24 Is there a difference in acetabular component orientation and
post-operative dislocation between elective and trauma total hip
replacements?
S. Hirri, T. Kane (United Kingdom)
17.31 The assessment of standards of patient care following total hip replacement in fractured neck of femur: a comparative study
A. Ng, A. Hamam, J. Barclay, Z. Hashim (United Kingdom)

17.38 The Swindon Hip Complexity Score validation
K. Elsorafy, T. Kamal, S. Deo, J.-H. Kuiper (United Kingdom)

17.45 A systematic review of pain assessment and analgesia in patients with cognitive impairment and neck of femur fractures
J. Palan, C. Yates, K. Dyson, W. Wignadasan, W. Eardley, J. Mangwani, P. Smitham (United Kingdom)

17.52 30 day readmission rate of patients managed for neck of femur fracture; a population based tool for targeted long term management
I. Igah, A. O’Gorman, R. Hughes, R. Edward (United Kingdom)

17.59 Analysis of A.S.A. score in geriatric hip fractures as a predictive factor for complications and readmission in hospital
G. Kastanis, K. Alpantaki, K. Ziogas, J. Sperelakis, P. Kapsetakis, P. Katsoulis, K. Balalis (Greece)

18.06 A fall in estimated glomerular filtration rate is a positive predictive risk factor for 30 day mortality in fractured neck of femur patients. A retrospective analysis
G. Silk, N. Vetharajan (United Kingdom)

18.13 Hip fractures and anticoagulation: the effectiveness of warfarin reversal
O. Shastri, A. Ramasamy, P. Grice, C. Hill, J. Jonathan Luscombe (United Kingdom)

18.20 Prospective study of a new dual mobility cup model: comparison of survey and efficacy within degenerative cases and fractures using total hip arthroplasty with dual mobility cup
A. Ferreira, L. Descamps, G. Dhéry, J.-L. Prudhon, J.-M. Puch, F. Steffan (France)

18.27 Unusual complication following total hip replacement
G. Volpin, J. Hakim (Israel)
16.35-17.31 ORAL PRESENTATIONS
PREOP PLANNING AND POSTOP EVALUATION THA
Chairmen: C. D’Arrigo (Italy), R. Raman (United Kingdom)

16.35 Are the inflammatory markers (erythrocyte sedimentation rate, C-reactive protein, procalcitonin) a good screening for total hip arthroplasty? A multicentric study

16.42 MRI evaluation as preoperative exam for predicting post-operative unsatisfactory results in patients with total hip arthroplasty
A. Vadalà, L. Proietti, P. Serlorenzi, R. Alonzo, P. Di Sette, S. De Sanctis, C. D’Arrigo, A. Ferretti (Italy)

16.49 The patient specific template for the femoral neck cut and the adjustment of stem alignment in short stem
M. Kitada, K. Nakata, S. Tamura, H. Owaki, T. Fuji (Japan)

16.56 Accurate anatomic restoration in primary total hip replacement with 3-D-hip-planning
U. Rebers (Malta)

17.03 The accuracy of restoration of the femoral head centre of rotation in the anteroposterior plane after uncemented total hip arthroplasty, a CT based study
A. Rajpura, T. Ait Si Selmi*, T.N. Board (United Kingdom, France)

17.10 Marker-free and automated computer tomography based spatial analysis tool to quantify hip arthroplasty stem migration. Development and validation
T. Scheerlinck, M. Polfliet, R. Deklerck, G. Van Gompel, N. Buls, K. Van Royen, J. Vandemeulebroucke (Belgium)

17.17 Densitometric evaluation of periprosthetic bone resorption after surgical placement of Accolade I TMZF hip stem at 36 months
P.D. Parchi, G. Ciapini, C. Mannucci, I. Castellini, S. Marchetti, S. Maffei, M. Lisanti (Pisa)

17.24 The correlation between femoral offset and clinical outcome
G. Toro, C. Grinberg, M. Gison, G. Calabrò, M. De Falco, A. Toro (Italy)
17.31 Functional outcomes of total hip arthroplasty in patients aged 30 years or less
R. Walker, M. Gee, F. Wong, Z. Shah, M. George, M. Bankes, A. Ajuied (United Kingdom)

17.38 Long-term results of total hip replacement in healthy under-30 patients. Results at a minimum of 10 years
D. Tradati, L.M.W. Gala, V. Fogliata, A.M. Querenghi, B.M. Marelli (Italy)

17.45 THA implant choice in young active patients under 60 years. Evidence in the last ten years
G. Sacchetti (Italy)

17.52 Total hip arthroplasty in juvenile idiopathic arthritis: a long term follow up with custom made implants
S.e. De Martinis, R. Viganò, S. Iori (Italy)

17.59 Total hip arthroplasty in rheumatoid arthritis: long-term follow-up with uncoated uncemented implants
S. Iori, R. Viganò, S.E. De Martinis (Italy)

18.06 Outcome of Charnley total hip replacements - Single centre experience
K. Sigamoney, C. Brignall (United Kingdom)

18.13 Our experience of hip replacement using the MAKO-RIO system (MAKOPLASTY)
P. Perazzini, A. Marangon, M. Montanari, F. Alberton, P. Sembenini (Italy)

18.20 Our experience in hip replacement with MAKO RIO system
P. Perazzini, A. Marangon, M. Montanari, P. Sembenini (Italy)

18.27 Long-term outcomes of hip arthroplasty with new Kaz.NIITO prosthesis
N. Batpenov, S. Baimagambetov, A. Batpenov (Kazakhstan)
**ARTHROSCOPY**

**P1** Results of arthroscopic treatment of femoro-acetabular impingement  
D. Munegato, D. Molisani, G. Gridavilla, M. Pungitore, A. Carbone, M. Bigoni, G. Zatti (Italy)

**P2** Heterotopic ossification prophylaxis with Celecoxib in hip arthroscopy for femoroacetabular impingement  
D. Munegato, D. Molisani, G. Gridavilla, M. Pungitore, A. Carbone, M. Bigoni, G. Zatti (Italy)

**P3** Femoroacetabular impingement: radiographic evaluation of evolution of risk factors in asymptomatic patients  
C. D’arrigo, S. De Sanctis, R. Alonzo, S. Frontini, P. Di Sette, A. Ferretti (Italy)

**P4** Os acetabuli and femoro-acetabular impingement: etiology, incidence and treatment  
D. Maglione, F. Pace, S. Favilla, C. Galante, P. Capitani, F. Randelli (Italy)

**P5** Hip arthroscopy in obese, a successful combination?  
D. Haverkamp, N. Bech, S. Kodde (The Netherlands)

**P6** Is there any benefit with hip arthroscopy in Tönnis 2 hip cases? Results of 3 years experience  
J. Esteves, P. Simas, J. Protásio, R. Ferreira, D. Pinto, M. Tapadinhas (Portugal)

**P7** Arthroscopically assisted treatment of tibial plateau fractures  
A.S. Terinte, A.E. Badila, R.A. Radulescu (Romania)

**PRIMARY CONSERVATIVE SURGERY**

**P8** Re-orientation rotational acetabular osteotomy for osteoarthritis of the hip secondary to acetabular dysplasia  

**P9** A calcium sulfate/calcium phosphate bioceramic in the treatment of osteonecrosis of the femoral head: kinetics of remodeling and clinical results  
R. Civinini, C. Carulli, C. Martini, L. Nistri, M. Innocenti (Italy)

**P10** 3D hip dynamic simulation: is it useful to optimize surgical treatment of femoro-acetabular impingment?  
C. Cardenas Nylander, E. Astarita, F. De Meo, V. Bellotti, E. Moya Gomez, M. Ribas Fernandez (Spain)

**P11** Femoroacetabular impingement treatment using anterior mini-open approach. Short-term results  
J. Diranzo García, L. Castillo Ruipérez, V. Estrems Díaz, L. Hernández Ferrando, A. Bru Pomer (Spain)
P12 1 year follow-up of 100 patients after arthroscopic assisted mini-open approach for the treatment of femoroacetabular impingement
M. Ezechieli, H. Windhagen, T. Floerkemeier, L. Classen, O. Marin Peña*, F. De Meo*, M. Ribas Fernandez*, V. Bellotti* (Germany, *Spain)

P13 Sports activity after triple pelvic osteotomy (Tönnis and Kalchschmidt technique) for the treatment of residual hip dysplasia
H. Windhagen, M. Ezechieli, T. Floerkemeier, S. Berger, M. Ettinger (Germany)

P14 Platelet-rich-plasma injections for the treatment of resistant trochanteric pain
N. Blucher, S. Nahas, V. Bonatsos, A. Patel, K. Sarraf, V. Vedi (United Kingdom)

P15 A case report of extra-spinal sciatica secondary to pathology at the femoral neck
D. Davenport, J. Walczak (United Kingdom)

P16 Long-term outcomes following triple pelvic osteotomy for Legg-Calves-Perthes disease

P17 Modified dunn osteotomy through surgical hip dislocation in slipped capital femoral epiphysis
M.M.A. Karim, F. Beder, A.H.A. Azeem, H.A. Ghani (Egypt)

P18 A nomogram for comparative assessment of hip function
T. Aulakh (United Kingdom)

P19 Gait analysis for evaluation of patients undergoing total hip arthroplasty (THA): comparing different surgical techniques and related clinical and functional outcomes
G. Demarinis, G. Ippolito, M. Serrao, C. Conte, C. Chillemi, F. Martinelli, V. Sepe, F. Pierelli, G. Costanzo (Italy)

P20 Acetabular shell deformation as a function of stiffness and bone strength
T. Pandorf, P. Dold, M. Flohr, R. Preuss, M. Bone*, J. Holland*, D. Deehan* (Germany, *United Kingdom)

P21 Retrieval analysis of dual-taper hips helps understand why they fail

P22 Biomarkers of early stage osteoarthritis
U. Ahmed, A. Anwar, R. Savage, M. Costa, P. Thornalley, N. Rabbani (United Kingdom)
PRIMARY THA/RA

P23 Problems, obstacles and complications in more than 400 navigated modular short stems in hip arthroplasty
A. Manzotti, A. Corriero, N. Confalonieri (Italy)

P24 Mid-term functional outcome of 36 mm metal-on-metal total hip arthroplasty (MOM THA) in district general hospital
A. Ng, H. Akrawi, S. Niculescu, Z. Hashim, A. Shetty (United Kingdom)

P25 Short term result of rectangular double taper round back stem compared with traditional rectangular double taper stem
S. Kishida (Japan)

P26 Is there a role for a unique metaphyseal fitting cementless short stem hip replacement
R. Raman, G. Johnson, S. Gopal, C. Hope-Saville (United Kingdom)

P27 Cementless hip arthroplasty with proximal fixation stem: mid term result of 712 hips
R. Romeo, A.O. Gonnella, G. Mancusi, M. Trabace (Italy)

P28 A new tool to quantify complications following total hip arthroplasty
T. Aulakh (United Kingdom)

P29 Reliability and accuracy of measuring anteversion of the acetabular cup on antero-posterior and lateral plain radiographs
K.T. Suh (South Korea)

P30 Bone conserving “neck-only” stem mini-hip replacement - Early results in a case-series
D. Arvinte, M. Sood (United Kingdom)

P31 Triple intraoperative leg length measurements technique for total hip replacement. Results in a consecutive series of 812 hips
N. Santori, D. Potestio, A. Bertino (Italy)

P32 What are the optimal blood metal ion thresholds for identifying metal-on-metal hip replacement patients with adverse reactions to metal debris?
G. Matharu, F. Berryman, L. Brash, P. Pynsent, R. Treacy, D. Dunlop (United Kingdom)

P33 The outcome of hip resurfacing compared to neck preservation short stem in primary total hip arthroplasty
S. Zanasi (Italy)

P34 Hydroxyapatite in total hip arthroplasty. Our experience with a titanium and hydroxyapatite double-coated cementless stem
E. Bonicoli, I. Castellini, L. Andreani, P.D. Parchi, M. Lisanti (Italy)

P35 Reliability of ceramic hip components
T. Pandorf, R. Preuss, R.M. Streicher* (Germany, *Switzerland)
P36 Clinical and radiological results at 5 years of follow-up with the GTS short stem
M. Loppini, G. Mazziotta, R. Ruggeri, F. Astore, F. Della Rocca, G. Grappiolo
(Italy)

P37 Mid-long term follow-up results with a new resurfacing technique with a
“hybrid” mid-head femoral prosthesis
G. Grappiolo, M. Loppini, F. Astore, G. Santoro, F. Traverso, D. Ricci
(Italy)

P38 Minimum 3 year follow up results of the HMAX stem and Delta PF Cup in the
management of primary osteoarthritis of the hip from a single surgeon in
England
S. West, M. Mussa, S. Parakambalath
(United Kingdom)

P39 Are short stem able to prevent thigh pain in total hip arthroplasty?
C. D’arrigo, R. Alonzo, S. De Sanctis, S. Frontini, A. Ferretti, A. Speranza
(Italy)

P40 Reliability of computer assisted navigation in limb length discrepancy and offset
evaluation in total hip replacement
C. D’Arrigo, A. Carcangiu, R. Alonzo, S. De Sanctis, S. Frontini, A.M. Bonifazi,
A. Ferretti
(Italy)

P41 Distal fixation in tapered wedge-shaped cementless stem leads to reduced
bone ingrowth and increased stress shielding for DDH Patients
K. Nakata, M. Kitada, S. Tamura, H. Owaki, T. Fuji
(Japan)

P42 The antero-lateral approach: a correct definition of terms
R. Civinini, A. Cozzi Lepri, L. Sirleo, M. Villano, M. Innocenti
(Italy)

P43 Cementless total hip arthroplasty: a bilayer coating to ensure cups survival rate
as well than stems
A. Ferreira, J. Picaud, T. Aslanian
(France)

P44 The use of internal landmarks to guide cup inclination angle in total hip
arthroplasty
M. Hakimi, P. Siney, T. Board
(United Kingdom)

P45 Wear rate and medium-term survival of a cemented, moderately cross linked
polyethylene acetabular prosthesis
T. Board, P. Siney, B. Barkatali, H. Wynn Jones, A. Gambhir, M. Porter
(United Kingdom)

P46 Preliminary results of a new trochanter sparing short stem
M. Ribas Fernandez, F. De Meo*, V. Bellotti, E. Astarita, C. Cardenas
Nylander, E. Moya Gomez
(Spain, Italy)

P47 Outcomes of dual-mobility acetabular cup in case of femoral neck fractures and
osteoarthritis: an update and new perspectives
D. Vanni, A. Pantalone, D. D’Adamo, F. Fascione, E. Andreoli, A. Belluati,
V. Salini
(Italy)
P48 Total hip arthroplasty first implant: correlation and variability of the results in the short to medium term
G. Pirovano, A. Bruschetta, R. Sotiri, D. Munegato, A. Rossi, G. Zatti (Italy)

P49 Abductor weakness after total hip arthroplasty
A. Pantalone, D. Vanni, M. Guelfi, R. Campese, F. Belfiglio, E. Andreoli, A. Belluati, V. Salini (Italy)

P50 Femoral modular stem system. Longitudinal wings stability concept: our experience in 2988 hip implants
E. Castaman, A. Albarkouni (Italy)

P51 Big heads: do dimensions make the difference?
C. D’Arrigo, R. Alonzo, S. De Sanctis, S. Frontini, G. Zampar, A. Ferretti (Italy)

P52 Restoration of the femoral offset and modularity: reality or fiction
G. Vicenti, M. Carrozzo, G. Picca, B. Moretti, G. Solarino (Italy)

P53 Risk analysis of falling in patients with coxarthrosis in preoperative period: a pilot study
N. Elibol, B. Unver, V. Karatosun, I. Gunal (Turkey)

P54 Minimally invasive posterior approach for total hip arthroplasty
L. Nuñez, A. Druetto (Argentina)

P55 Intra-pelvic migration of femoral head trial in total hip arthroplasty, a rare intraoperative complication. Our experience and systematic review of literature
S. Abouel-Enin, H. Fraig, J. Griffiths, J. Latham (United Kingdom)

P56 Femur first surgical technique: a smart non-computer-based procedure to match the safe zone in total hip arthroplasty
G. Mazziotta, M. Loppini, E. Caldarella, F. Astore, R. Ruggeri, G. Grappiolo (Italy)

P57 Short stem hip implants: light and darks at medium follow-up
G. Logroscino, F. Donati, M. Saracco, G. Cerulli (Italy)

P58 Options for hip arthroplasty in patients younger than 50 years: outcome of metal-metal hip resurfacing at more than 10 years follow-up
C. Van Der Straeten, K. De Smet, A. Calistri (Belgium, Italy)

P59 Options for hip arthroplasty in patients younger than 50 years. Ceramic-ceramic total hip arthroplasty outcomes at more than 10 years follow-up
C. Van Der Straeten, K. De Smet (Belgium)

P60 Short term results of tantalum acetabular cups in total hip arthroplasty following pelvic irradiation
D. donati, M. Depaolis, R. Zucchini, M. Romantini, C. Romagnoli (Italy)

P61 Complications and mid-term outcomes of total hip arthroplasty following failed internal fixation of the proximal femoral fractures
A. Taheriazam, F. Safdari (Iran)
P62 Using tranexamic acid to decrease postoperative hemorrhage: local versus intravenous administration
A. Taheriazam, F. Safdari (Iran)

P63 A rose by any other name; the validity and safety of the new patent-free equivalent/generic hip implants
O. Gosling, S. Heylen, M. Porteous, A. Amit (United Kingdom)

P64 Preliminary results on functional outcome among lateral transglutetal approach vs tissue sparing approaches
M. Franceschini, A. Albisetti, C. Castellaneta, E. Pandini, G.V. Mineo (Italy)

P65 Medium term outcomes of the delta trabecular titanium cup in primary hip arthroplasty
G. Schaller, N. Simson, P. Whittingham-Jones, N. Davies, T. Waters (United Kingdom)

P66 Pain modulation and cortex reorganization after hip reconstruction
A. Calistri, V. Calistri, F. Caramia, C. Van Der Straeten, K. De Smet, F. Formiconi, C. Villani (Italy, *Belgium)

P67 Dual mobility cup in total hip arthroplasty. Short term results
R. Spagnolo, C. Fabrizio, A. La Maida, F. Luceri (Italy)

P68 Preoperative ultrasonographic evaluation in assessing gluteal tendinopathy degeneration in patients with hip arthritis
P. Serlorenzi, L. Proietti, S. De Sanctis, R. Alonzo, A. Vadalà, M. Vetrano, C. D’Arrigo, A. Ferretti (Italy)

P69 Results of primary total hip replacement with C-stem (Asian) in femora with abnormal anatomy
C.A. Jakaraddi, N. Lokikere, P. Siney, T. Board, N. Shah, H. Wynn Jones (United Kingdom)

P70 The hip prosthesis related osteotomy and subtrocantheric shortening in the treatment of congenital hip dislocation
M. Trono, G. Rollo, A. Bitonti, G. Lucidi (Italy)

P71 Difficult primary total hip arthroplasty via direct anterior approach
J. Mortazavi, R.M. Tabatabaee, A. Javaheri (Iran)

P72 The outcome of cementless total hip arthroplasty in femoral head osteonecrosis
A. Javaheri, R.M. Tabatabaee, J. Mortazavi (Iran)

P73 Topical vs intravenous administration of tranexamic acid in direct anterior hip arthroplasty - A prospective randomized trial
S. Ghijselings, B. Jacobs, R. Driesen, K. Corten (Belgium)

P74 Early results of an uncemented total hip replacement with a modular neck-stem junction
K. Makridis, C. Armstrong, G. Kumar, V. Peter (United Kingdom)
POSTER SESSIONS

P75 Total hip arthroplasty after acetabular fracture: incidence of complications, reoperation rates and functional outcomes: evidence today
K. Makridis, O. Obakponovwe, P. Bobak, P. Giannoudis (United Kingdom)

P77 Direct anterior mini invasive surgery for THR: is it worth? Forgotten hip score evaluation at 6-18 months from surgery
F. Lijoi, G. Giordano, S. Benedetti (Italy)

P78 A “biofilm prevention protocol” leads to low readmission rates in hip surgery
K. Govaers, A. Braet (Belgium)

P79 The true value of pre-operative templating in total hip arthroplasty
J. Watson, V. Prasad, D. Anwar, A. Wall, S. Bhatnagar (United Kingdom)

P80 Total hip arthroplasty in young patients: early results are better
J. Mortazavi, R.M. Tabatabaee, A. Javaheri (Iran)

P81 posterolateral versus lateral approach in total hip arthroplasty, a prospective study
K. Gharanizadeh, M. Abolghasemian, M.T. Ghazavi (Iran)

P82 Tranexamic acid use in elective primary hip and knee arthroplasty; a prospective study
S. Singh, J. Bassi, G. Singh Sidhu, V. Francis, A. Bhattacharjee, P. Roberts, A. Evans (United Kingdom)

P83 Displacement of polished cemented stem during attempted closed reduction of dislocated total hip replacement
M. Changulani (United Kingdom)

P84 Outpatient total hip arthroplasty center for elective surgery, CES, Silkeborg RH, Denmark
L. Bendikas, B. Skovgaard (Denmark)

P85 Reinfusion drains in primary total hip arthroplasty
F. Familiari, M. Sticozzi, C.F. Bruno, O. Galasso, G. Gasparini (Italy)

P86 Intra-articular and intravenous tranexamic acid to reduce blood loss in total hip replacement
D. Notarfrancesco, A. Zara, A. Lamberti, F. Aquino, L. Russo (Italy)

P87 The cemented and cementless stem-endosteal interface of total hip replacement at long term follow-up
G. Pavone, G. Zarattini, U.E. Pazzaglia (Italy)

TRIBOLOGY/MATERIALS

P88 Use of porous tantalum cup in total hip arthroplasty with different advanced bearing technologies
S. Zanasi (Italy)
P89 Clinical and radiographic outcomes of a trabecular titanium acetabular component in hip arthroplasty: results at minimum 5 years follow-up
I. Perticarini, F. Benazzo (Italy)

P90 Squeaking of hard-on-hard bearings - A major clinical issue?
T. Pandorf, R. Preuss, R.M. Streicher* (Germany, *Switzerland)

P91 Modular necks in hip replacement in the mid-longterm: a multicentric study
F. De Meo, V. Bellotti, E. Astarita*, C. Cardenas Nylander*, M. Ribas Fernandez*, P. Cavaliere (Italy, *Spain)

P92 Effect of head material and size on frictional torque of cross-linked ultra high molecular weight polyethylene
J. Pamu, C. Li, V. Pawar* (United Kingdom, *USA)

P93 Taper corrosion of the modular total hip arthroplasty: a systematic review and meta-analysis of survivorship between metal and ceramic heads
N. Hussain, O. Gosling, T. Ferreri, E. Schemitsch*, A. Atrey (United Kingdom, *Canada)

P94 Evaluation of periprosthetic bone resorption secondary to first total hip replacement with Metha® short hip stem: follow-up examination results at 48 months
G. Ciapini, P.D. Parchi, C. Mannucci, I. Castellini, N. Piolanti, L. Andreani, S. Maffei, M. Lisanti (Italy)

P95 Differences between implantation of 36 mm or 40 mm femoral head in THA: preliminary results
F. Niccolai, I. Castellini, C. Picece, S. Stagnari, M. Lisanti (Italy)

P96 Systemic toxicity of metal ions in a metal-on-metal hip arthroplasty population
C. Van der Straeten, D. Damien Van Quickenborne, A. Calistri*, J. victor, K. De Smet (Belgium, *Italy)

P97 Large-diameter metal-on-metal total hip arthroplasty: 5 years of follow-up
V. Calvisi, A. Aloisio, N. Ciprietti, R. Goderecci, V. Francione (Italy)

REVISION

P98 Big balls – The ceramic experience in revision total hip replacements
N. Aamer, R. Raman, V. Johnson (United Kingdom)

P99 Total hip arthroplasty after acetabular fracture
A. Aprato, M. Gastaldo, M. Favuto, G. Massazza, A. Massè (Italy)

P100 The use of biotechnologies in revision of prosthetic hip replacement
G.M. Calori, M. Colombo, E. Mazza, S. Mazzola, T. Talamonti, C.F. Minoli (Italy)

P101 Prosthetic septic large revision
G.M. Calori, M. Colombo, E. Mazza, S. Mazzola, T. Talamonti, C.F. Minoli (Italy)

P117 Acetabular revision with trabecular titanium - 120 cases with a 2 year minimum follow-up
T. Waters, N. Davies, P. Whittingham-Jones, G. Schaller (United Kingdom)

P118 Clinical and radiological results of a heterogeneous group of patients treated with a modular femoral revision system
I. Castellini, L. Andreani, E. Neri, E. Bonicoli, V. Zarra, M. Lisanti (Italy)

P120 The radiologic outcomes of open reduction and lateral plating with wiring in treating for Vancouver B2 periprosthetic fractures of the femur
J.-S. Park, K.J. Jung (South Korea)

P121 Which imaging modality is most effective for identifying pseudotumours in revised metal-on-metal hip resurfacings: ultrasound or magnetic resonance imaging or both?
G. Matharu, R. Mansour, O. Dada, S. Ostlere, H. Pandit, D. Murray (United Kingdom)

P122 Assessment of the clinical and radiological results of graft augmentation prosthesis (GAP 2 cage) in acetabular component revision
H. Hosny, A. El-Bakoury, H. Fekry (United Kingdom)

P123 Clinical experience of revision surgery for failed metal-on-metal total hip arthroplasty
A. Ng, S. Niculescu, F. Qamar, M. Rawes, A. Shetty (United Kingdom)

P124 Primary hip stems in two stage revision after extensive lateral window approach: results and advantages
G. Burastero, L. Cavagnaro, M. Basso, G. Riccio, S. Tigano, L. Felli (Italy)

P125 Fracture of a cobalt–chromium hip prostheses of revision after a fracture of ceramic hip prostheses

P126 The “new normality” after hip replacement
T. Villa, F. Bestetti, A. Corradi (Italy)

OTHERS

P127 Proximal femoral resection-arthroplasty in severe cerebral palsy and painful hip
G. Toro, P. Florio, N. Gagliardo, R.D. D’Amato, R. Marchesano, C. Di Fino, A. Tirelli (Italy)

P128 Rehabilitation after hip arthroplasty with anterior approach
M. Zanazzo (Italy)
P129 Diagnosis of delirium in patients with fractured neck of femur
E. Melling, E. Ivan, J. Ruddlesdin (United Kingdom)

P130 Simulation-based education for surgical training in hip arthroplasty
P.D. Parchi, N. Piolanti, L. Andreani, I. Castellini, E. Bonicoli, S. Condino, M. Carbone, V. Ferrari, M. Lisanti (Italy)

P131 Discussion and audit of incidence of contrast induced nephropathy (CIN) post CT pulmonary angiography (CTPA) in Cheltenham and Gloucester Hospitals (CGH and GRH)
G. Silk (United Kingdom)

P132 A new system for acetabular reaming
A. Taheriazam, R. Kashi, N. Abolfathi, F. Safdari (Iran)

P133 Theatre cost is £16/minute so what are you doing just standing there?
A. Volpin, O. Khan, F. Haddad (United Kingdom)

P134 Oral analgesics for postoperative pain in total hip arthroplasty. Our experience
A. Mazza, S. Tornago M. Gramazio (Italy)

P135 Does changes in health-related quality of life determine patient satisfaction after total hip replacement?

P136 The surgical treatment of recurrent trochanteric bursitis and coxa saltans externa with Z-plasty lengthening of the iliotibial band
S. Jain, A. Ghatahora, N. Shah, R. Grogan (United Kingdom)

P137 Athletic pubalgia: does it really exists?
T. Corsini, F. Pogliacomi, A. Paraskevopoulos, A. Pellegrini, S. Pourjafar, F. Ceccarelli (Parma)

P138 Osteoporosis fractures of the trochanteric region in elderly: analysis of radiographic indices and risk predictor of subsequent fractures
T. Corsini F. Pogliacomi, A. Pellegrini, A. Paraskevopoulos, F. Tacci, F. Ceccarelli (Italy)

P139 H-max stem in restoring femoral offset in hip arthroplasty: our experience
M. Medetti, L. Perticarini, F. Benazzo, M. Medetti (Italy)

TRAUMA

P140 Management of intertrochanteric fractures of the femur using primary hemiarthroplasty in senile patients
M. Mahran, A. Abdel-Aal, H. Bakr, H. Said (Egypt)

P141 Delayed surgery for patients with hip fracture - Incidence and risk factors for preoperative venous thromboembolism: using preoperative CT thromboembolism protocol
K.T. Suh (South Korea)
P142 Preoperative prevalence of deep venous thrombosis of lower extremities in patients with femoral neck fractures
M. Ankin, T. Petryk, V. Ladyka, V. Roienko (Ukraine)

P143 Imaging in occult neck of femur fractures: what modality is being chosen?
H. Osmani, T. Holme, M. Gordon, A. Martin, C. Zhao, B. Chatterjee
(United Kingdom)

P144 Surgical treatment of acetabulum fractures
N. Mursalov, N. Batpenov (Kazakhstan)

P145 The use of DHS versus cannulated screws in treatment of fracture of femoral neck: our experience
M. Bisaccia, P. Antinolfi, J. Teodori, C. Ibanez Vicente*, A. Caraffa
(Italy, *Spain)

P146 Minimally anterior approach for hip prosthesis in the treatment of fractures of the femur neck
M. Trono, A. Bitonti, G. Lucidi (Italy)

P147 Total hip arthroplasty in end stage renal disease with femoral neck fracture
A. Javaheri, J. Mortazavi, R.M. Tabatabae (Iran)

P148 Total hip arthroplasty in patient with old posterior wall fractures
R.M. Tabatabae, A. Javaheri, J. Mortazavi (Iran)

P149 Lateral X-ray for proximal femoral fractures – Is it really necessary?
O. Riaz, S. Nisar, R. Arshad, R. Vanker (United Kingdom)

P150 Expandable proximal femoral nail versus Gamma proximal femoral nail for the treatment of AO/OTA 31A1-3 fractures
W. Yaniv, M. Drexler, E. Steinberg, N. Snir, T. Frenkel, G. Eisenberg (Israel)

P151 Warfarin reversal in neck of femur fractures - Current failings and future strategies
J.E. Lawrence, D. Cundall-Curry, A. Carrothers, D. Fountain (United Kingdom)

P153 Bilateral periprosthetic hip fracture: how we do it
S. Biggi, L. Cavagnaro, M. Formica, L. Felli, F.M. Franchin (Italy)

P154 Spontaneous polyarticular septic arthritis with bilateral adductor compartment collections
D. Anwar, J. Watson, Z. Hakim, S. Bhatnaga, E. Mulgew (United Kingdom)

P155 Audit of fracture neck of femur
A. Fadulelmola, A. Gabr, K. Sigamoney, A. Chitre (United Kingdom)

P156 Antibiotic prophylaxis for hip fracture surgery
A. King, C. Lewis, J. Marciniack, S. Sturdee, G. Wells, A. Shenolikar,
S. Ankarath (United Kingdom)
**P157** Acetabulum fractures – Worth operate? Case-by-case review of cases operated in the last 5 years  
*J. Esteves, P. Simas, J. Pinto, J. Protásio, R. Ferreira, D. Pinto* (Portugal)

**P158** Functional results of femoral neck fractures in elderly patients treated with osteosynthesis  
*R. Carbonell Escobar* (Spain)

**P159** The variable angle Martin plate – Does a variable angle give variable outcomes over the DHS? A case matched study  
*O. Diamond, A. Tucker, P. Archbold* (United Kingdom)

---

**TUMOURS**

**P160** Schwannoma of lateral femoral cutaneous nerve that thigh pain mimicking: a review of the literature and case report  
*J.-S. Park, K.J. Jung* (South Korea)

**P161** Osteochondromas or low-grade chondrosarcomas? A two cases with different clinical follow-ups study  
*J. Esteves, M. Leão, R. Ferreira, D. Pinto, T. Coelho, N. Craveiro Lopes* (Portugal)

ORAL PRESENTATIONS
As the scientific program is made of parallel sessions, speakers are recommended to respect the allotted time given for their presentations to contribute to the smooth running of all scheduled sessions. Registration in the congress is absolutely necessary for oral presenters.

E-POSTERS
Posters will be presented in electronic format. Computers for consultation will be available in the Exhibition Area.

ABSTRACT BOOK
The congress abstract book has been produced by HIP International and your copy will be provided upon presentation of the voucher included in the Congress kit at the CeramTec stand (Booth #8).

SLIDE PREVIEW CENTRE
A computerized slide centre is managing all the presentations and scientific sessions of the Congress through a central network. This office is located at the ground floor near to the Plenary Room (Washington) and is available for speakers to deliver their PowerPoint presentations with the following schedule:

- **Wednesday 25 November:** 16.00-18.00
- **Thursday 26 November:** 7.15-19.30
- **Friday 27 November:** 7.15-19.30

Only computer projection is available. It is not possible to directly use personal laptops at the podium. PowerPoint presentations (Windows or Apple) on USB pens, memory sticks or personal laptops must be delivered to the slide centre at least one hour before the beginning of the session or the day before in case of early morning presentations. This timing allows a smooth uploading of all presentations to the central computerized network and a swift transmission to the assigned meeting rooms.

GENERAL ASSEMBLIES
BHS General Assembly - Room Porta, Friday 27 November, 18.35
SIdA General Assembly - Room Parini, Friday 27 November, 18.35
CME CREDITS

UEMS Accreditation
The International Combined Meeting BHS-SIDA 2015 is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net
The International Combined Meeting BHS-SIDA 2015 is designated for a maximum of 11 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

The online questionnaire and certificate will be available from 28 November to 13 December 2015 at www.sidabhs-jointhip.com - the registration code, printed on your badge will be necessary to access the CME questionnaire and to print out your own certificate.

Accreditamento ECM
I crediti formativi ECM saranno certificati dal Provider OIC (2836) secondo la nuova regolamentazione approvata dalla Commissione Nazionale per la Formazione Continua il 13 gennaio 2010 e s.m.i. Si ricorda la Determina assunta dalla Commissione Nazionale Formazione Continua in data 18 settembre 2013 in materia di reclutamento diretto. I crediti assegnati al Congresso (evento Nr. 139455) sono 2 e sono rivolti a Medici Chirurghi specialisti in Ortopedia e Traumatologia, Anatomia Patologica, Anestesia e Rianimazione, Medicina Fisica e Riabilitazione ed a Fisioterapisti, Infermieri, Tecnici Ortopedici. Si ricorda che avranno diritto ai crediti ECM solo coloro che saranno presenti almeno all’80% dell’intero programma scientifico congressuale accreditato. La rilevazione delle presenze avverrà attraverso l’uso del registro presenze, che sarà a disposizione giorno per giorno, nella Sala Plenaria dove si svolgeranno le sessioni scientifiche accreditate del Congresso, a partire dalle 10.45. Andranno indicati tassativamente nome, cognome e orari di ingresso e di uscita, apponendo le relative firme. L’assenza di una delle firme necessarie determinerà l’impossibilità di richiedere i crediti formativi. Avranno diritto ai crediti ECM solo coloro che avranno compilato la scheda anagrafica e di autoapprendimento avendo cura di inserire tutti i dati richiesti ed apporre la propria firma. La scheda dovrà essere ritirata al desk Segreteria e riconsegnerata al termine del Congresso. Verrà richiesta anche la compilazione del questionario di valutazione dell’evento.
CONGRESS VENUE
Milan Marriott Hotel
Via Washington, 66
20146 Milano, Italy
Tel. +39 02 48521
www.milanmarriotthotel.com

The Milan Marriott hotel is conveniently located for Milan Linate airport and a few minutes from Milan city centre. Enjoy the various shopping malls, museum visits and other local attractions. Visit the temple of football, the “San Siro Stadium” at just 15 minutes away from the Milan Marriott Hotel, the historical part of the city where you can see the famous Last Supper painting, the masterpiece of Leonardo Da Vinci.

Nearest Metro stop: Wagner (Red Line).

ORGANIZING SECRETARIAT
Viale G. Matteotti, 7
50121 Florence, Italy
Tel. +39 055 50351
infojointhip@oic.it
www.sidabhs-jointhip.com

The Registration Desk is open accordingly to the following schedule:
Wednesday 25 November: 14.00-18.00
Thursday 26 November: 7.15-19.30
Friday 27 November: 7.15-19.30

*Copy of Course certificate or Chief letter is necessary.
Registration fees include:
- access to the scientific sessions
- access to the congress area including exhibition
- congress bag
- certificate of participation
- UEMS and ECM Italian credits
- personalised name badge
- final programme
- coffee points
- invitation to the Opening Ceremony and Welcome Reception

The Accompanying Person registration fee includes:
- personalised name badge
- invitation to the Opening Ceremony and Welcome Reception
- half day “Grand Tour of Milan” city-tour

CATERING FACILITIES
Coffee points will be available in the exhibition area for the duration of the congress. Lunch boxes will be provided by companies during the sponsored symposia at lunch time.

INDUSTRY EXHIBITION
An industry exhibition has been organized at the congress venue giving the opportunity to show the latest and innovative techniques in this field. Participants could be asked by staff from industries at exhibit booths to get their personal contact data through bar-code scanning. Information about name, surname, country and e-mail address will be in this way given out to companies on an individual, voluntary basis. Please do not allow scanning of your badge by industry representatives without your direct consent.

LANGUAGE
The official language of the meeting is English. Simultaneous translation from English to Italian is foreseen in the Plenary Room (Washington) during the scientific sessions.

OPENING CEREMONY AND WELCOME RECEPTION
Milan Marriott Hotel
Thursday, 26 November, 18.45 hrs

Participation in the Opening Ceremony and Welcome Reception is included in the congress registration fee. It is compulsory to wear the name badge.
26 NOVEMBER 2015

**ROOM PORTA**

**12.45**  INDUSTRY SYMPOSIUM - STRYKER

**14.00**  PROCEDURAL INNOVATION IN HIP ARTHROPLASTY: RECENT DEVELOPMENTS AND FUTURE DIRECTIONS  
Chairman: F. Haddad (United Kingdom)

Speakers: F. Kolisek (USA), F. Randelli (Italy), G. Zatti (Italy)

**ROOM MONTI**

**12.45**  INDUSTRY SYMPOSIUM - CERAMTEC

**14.00**  CERAMIC ON CERAMIC STILL THE BEST SOLUTION EVEN IN DIFFICULT ECONOMIC TIMES?  
Chairman: F. Benazzo (Italy)

12.45  Introduction  
F. Benazzo (Italy)

12.50  News about from laboratory and in-depth registry analysis  
R.M. Streicher (Switzerland)

13.05  Outcomes and cost consideration with a large series of CoC  
R. Raman (United Kingdom)

13.20  Development and application of CoC. Does advanced ceramic justify the cost?  
A. Toni (Italy)

13.35  Discussion

**ROOM PARINI**

**12.45**  INDUSTRY SYMPOSIUM - LIMA CORPORATE

**14.00**  AUGMENT YOUR REVISION PRACTICE: TIME TO FACE THE CHANGE  
Chairmen: J. Latham (United Kingdom), L. Zagra (Italy)

13.05  The changing face of uncemented acetabular revision  
F. Falez (Italy)

13.17  Dislocation: diagnosing instability  
S. Jones (United Kingdom)

13.29  Staring into deep holes: complex acetabular reconstruction  
P. Culpan (United Kingdom)

13.41  Uncemented femoral revisions: 20 years of experience  
F. Benazzo (Italy)
13.15 Industry Symposium – Smith & Nephew

14.15 Hip Tribology - Improving the Performance in THA
Chairman: F. Haddad (United Kingdom)

13.15 Introduction
F. Haddad (United Kingdom)

13.20 Tribologic considerations in THA
E. Davis (United Kingdom)

13.30 The bearing is the key
F. Haddad (United Kingdom)

13.40 OXINIJM™: clinical results and practical advantages of ceramized-metal
N. Santori (Italy)

13.50 XLPE: clinical implications of different X-linked poly
P. Caldora (Italy)

14.00 Bearings in the UK: Results from the National Joint Registry
E. Davis (United Kingdom)

14.10 Discussion - Q&A
27 NOVEMBER 2015

13.05 INDUSTRY SYMPOSIUM - MICROPORT

14.20 SUPERPATH® - MICRO POSTERIOR APPROACH
Chairmen: M. Cronin (United Kingdom), A. Massè (Italy)

13.05 Introduction
A. Massè (Italy)

13.10 SuperPath® - Concept
M. Cronin (United Kingdom)

13.25 SuperPath® - Video

13.45 SuperPath® - Benefits & advantage
M. Cronin (United Kingdom)

14.00 SuperPath® - Key point in learning Curve
M. Cronin (United Kingdom)

14.15 Discussion - Q&A
A. Massè (Italy)

14.20 Conclusion
ACKNOWLEDGMENTS
The Organising Committee would like to thank the following companies for their generous support:

DELTA-REVISION TT

- Restore the centre of rotation with fully modular spacers.
- Restore anteversion independently of cup positioning.
- Maximize bone contact and optimize anchorage with the osteo-conductive Trabecular Titanium structure.

> SPACERS <
The use of spacers ensures precise coverage and anteversion of the acetabular component

> AUGMENTS <
The cranial module system is designed to fill bone defects and adapt to the size and position of the defect
